### THE EAST KOOTENAY MUSICAL FESTIVAL

And "the night shall be filled with music,  
And the cares that infest the day  
Shall fold their tents, like the Arabs,  
And as silently steal away."

—Longfellow.  
The nights and days of last week were certainly filled with music for all those who were privileged to listen to or take part in the East Kootenay musical festival, which was brought to a conclusion in Cranbrook on Saturday evening.

The object of a musical festival is very well stated by Sir Walford Davies, well known British musical authority, when he states, "In musical festivals the object is not to gain a prize or defeat a rival, but to place one another on the road to excellence." This spirit of the festival was maintained throughout.

Much progress has been made since the last festival, and much remains to be learned. But the standard of music has been raised in Kimberley, and no music lover will be content to rest on his or her laurels, but will go forward with redoubled efforts to reach the highest possible point of perfection. — Kimberley Press.

Then the Cranbrook Courier has the following to say:

"An outstanding achievement and a signal success, both artistically and financially, was brought to a successful conclusion in Cranbrook last Saturday evening, following the three days' session of the second annual East Kootenay Musical Festival."

"True to its name, it was a feast of music in reality. It stood as a wonderful achievement for the Knights of Pythias order, which sponsored it, and to the district represented, extending from Pincher Creek on the east to Nelson on the west. It was a big thing for Cranbrook, for it brought many people here who returned to their homes more favorably impressed than ever about the place, aside from the increased volume of business enjoyed by the merchants, hotels, cafes and in other lines. That the festival movement in East Kootenay will continue goes without saying. The Knights of Pythias will see to that. The result of their efforts this year exceeded all expectations, and in spite of the depression and rainy weather, they have had no difficulty in balancing their budget and something left to the good."

"Of the shields and crosses, numbering 16 in all, seven remained in Cranbrook, four went to Kimberley, and one each to Fort Steele, Nelson, Lumberton, Hillcrest and Blaimore. "Miss Laura Freebairn, violinist of Pincher Creek, won 90 marks in the instrumental championship. She captivated her hearers with her smooth tone and complete mastery of her instrument."

"George Kerr, of Blaimore, another violinist and under 14 years of age, was a perfect marvel. A moribund in knickers, he played with poise, self-confidence and fire only to be found in a concert artist such as Fritz Kreisler or Mischa Elman. He has all the ear-marks of a violin virtuoso, and if he keeps going he will, some day be one."

"One of the agreeable surprises of the festival was the large number of instrumentalists that came from down around Blaimore, Frank and Hillcrest. Their orchestra work was of exceptionally high order, as was also that of the pianists. The number of high-class participants reflects much credit on W. H. Moser and W. J. Harrison, violin teachers, and Miss Madeleine Chardon, teacher of piano."

New methods have been devised, by which it is hoped definite immunity from infantile paralysis may be given to human beings. Dr. Simon Flexner of the Rockefeller Institute for Medical Research, has announced.

### DOMINION GOVERNMENT WILL ENCOURAGE USE OF COAL

OTTAWA, May 2.—To encourage the greater use of Canadian coal in the manufacture of coke or gas, the Dominion government will pay any difference between the costs of United States and Canadian coal up to \$1 per ton. Official announcement to this effect was made Saturday. The assistance will be in effect as from April 1st last.

The text of an order-in-council authorizing this action reads:

"The committee of the privy council, on the recommendation of the minister of mines (Hon. W. A. Gordon-Ladyside, in order to encourage the greater use of Canadian coal in the manufacture of coke or gas:

"1. That in respect of coal mined in Canada and transported to and used at any coke or gas plant in Canada during the period fixed by this order-in-council, the minister of mines, through the Dominion fuel board, be authorized to pay to coal operators, from such sums as may be provided by parliament for the purpose, the difference in amount per net ton between the laid down cost to the coke oven proprietor or gas manufacturer, of coal mined in Canada and laid down cost at the same plant of imported fuel that would otherwise be used, up to a maximum of \$1 per ton.

"2. That payments to coal operators shall be made only upon that quantity of Canadian coal used in the manufacture of coke or gas at the plant in excess of the average quantity of such coal used annually in such plant during the three years immediately preceding the 31st day of December, 1921. Provided that trial shipments of Canadian coal used in any plant for experimental purposes only shall not be included in computing the amount of Canadian coal used in any plant for the purpose of this section.

"3. That the said payments shall apply on:

"(a) Coal manufactured into coke used in the smelting of metals or melting of metals.

"(b) Coal upon which any subvention or reduced freight rate provided by the government of Canada is payable under authority of orders-in-council P.C. 1300 and P.C. 1303 of May 30, 1931, or amendments thereto.

"(c) Coal which was mined by coal operators from mines or properties which were brought into operation or commenced shipping coal after the 31st day of December, 1931.

"(d) Coal used in any plant subject to the provisions of chapter 3 of the statutes of Canada, 1927.

"4. That the minister of mines reserves the right of refusing approval in each and every application for assistance under this authority.

"5. For the purpose of computing the amount of assistance payable under this authority, the cost per ton of Canadian coal at the point of consumption and the cost per ton of imported fuel which would otherwise be used shall be determined by the minister upon report of the Dominion fuel board or such other authority or person as the minister may appoint for that purpose. The minister or any person appointed by him for the purpose shall have free access to all works, books, plans, records or documents of any operator claiming payments under this order-in-council in so far as may be necessary for the purposes of this order-in-council.

"6. That the assistance herein authorized shall be effective from April 1, 1932.

"7. That the Dominion fuel board be charged with the administrative duties connected therewith and shall report annually to the minister of mines as to the amount paid to coal operators during the period of movement."

Medicine Hat's mill rate for this year is the same as last, 28 mills.

## COLE'S THEATRE BELLEVUE

Tonight, Friday, Saturday - May 5, 6, 7

Two of the Screen's Most Popular Stars  
And what a cast, in a blend of love, laughs and action you will always remember.

## COMFORT for COLICKY BABIES

### ... THROUGH CASTORIA'S GENTLE REGULATION

The best way to prevent colic, doctors say, is to avoid gas in stomach and bowels by keeping the entire intestinal tract open, free from waste. But remember that a tiny baby's tender little organs cannot stand harsh treatment. They must be gently urged. This is just the time Castoria can help most. Castoria, you know, is made specially for babies and children. It is a pure vegetable preparation, perfectly harmless. It contains no harsh drugs, no narcotics. For years it has helped mothers through trying times with colicky babies and children suffering with digestive upsets, colds and fever. Keep genuine Castoria on hand, with the name:

*Wm. D. Galt*  
**CASTORIA**  
CHILDREN CRY FOR IT

### WORLD HAPPENINGS BRIEFLY TOLD

The first shipment of Canadian livestock this year from Montreal to Great Britain left Montreal April 22.

Germany may refuse to pay more reparations at the end of the Hoover moratorium.

A new agricultural advisory committee will be set up in Canada to co-ordinate and give direction to the work of scientific agriculturists.

Great Britain will be the first country to come back to normal said Hon. G. Howard Ferguson, Canadian High Commissioner to Great Britain.

The volume of trade between Canada and France shows an increase of exports and a change in the trade balance to favor Canada.

Professor E. L. Harrington, University of Saskatchewan, Saskatoon, is among the newly-elected fellows of the Royal Society of Canada.

It was said in the British House of Commons that preferential tariffs to the Dominions are being abused in cases of semi-manufactured goods.

The amount and percentage of pulpwood used in Japan from Canada have increased, and the Canadian pulpwood now holds first place in volume and value.

The civil aviation branch of the department of national defence for Canada has been practically wiped out as the result of a severe cut in federal estimates.

Captain Joseph Devlin, O.B.E., is dead at his home in Burnaby, B.C., aged 83. He was born in Belfast, Ireland, and had a distinguished military career.

The new \$10,000,000 Shakespeare Memorial Theatre at Stratford-on-Avon, opened by the Prince of Wales, has been described by some people as a jam factory in appearance.

The Prince of Wales will be the chief guest of the British Medical Association at their great centenary dinner at the Albert Hall in July. The party will comprise some 2,000 doctors and their wives, drawn from all over the world.

**Watch Your Step**  
A Boston manufacturer is trying to produce a non-skid bathtub. The bathtub of today, he says, is "a thousand times more dangerous than railroad travel and two hundred times as dangerous as riding in an airplane." Watch your naked step.

Servant (to portrait of master): "You said that I drank your wine behind your back; now I will do it to your face."—Buen Humor, Madrid.

### King George Refused Stamps For Collection

Royal Family Does Not Accept Gifts From Public

American admirers of George V. and his stamp collection, who have been sending His Majesty specimens of American issues, are advised through the Associated Press that he does not accept gifts of stamps. The Royal Family of Great Britain makes a practice of not accepting gifts from the public at home or abroad. What is more, with respect to proffered gifts of American stamps, George V.'s world famous collection includes only stamps of the British Empire. This explanation is timely. An American sent His Majesty specimens of a recent issue of commemorative stamps from this country and was pensive because they were not accepted. The story got into the newspapers and tended to convey the wholly erroneous idea that King George was unappreciative of the compliment paid him by the offer of the stamps. A statement of the Royal Family's practice in such matters should be sufficient to remove any such misunderstanding.—Detroit Free Press.

### Recipes For This Week

(By Betty Barclay)

#### PRUNE JAM

2 cups prunes.  
2 oranges.  
1 cup sugar.  
1½ pints water.  
1 lemon.  
½ teaspoon salt.  
Soak the prunes overnight in the water. Cook 10 minutes in the water in which they soaked, drain, and cut into small pieces. Slice the oranges and lemons, including the peeling, very thin and cook rapidly in the prune juice for 15 minutes. Add the prune pulp, the sugar and the salt, and cook until thick, stirring constantly. Seal in hot, sterile jars.

#### CARAMEL PUDDING WITH MARSHMALLOW WHIP

1 junket tablet.  
1 tablespoon cold water.  
1 pint milk.  
4 tablespoons marshmallow topping.  
¼ cup sugar.  
¼ cup boiling water.  
½ teaspoon vanilla.

Dissolve junket tablet in cold water. Put sugar in a small saucepan and heat, stirring constantly, until melted and golden brown. Add boiling water and dissolve sugar. In it add milk to caramel syrup and warm until lukewarm—NOT HOT. Remove from stove. Add dissolved junket and heat, stirring constantly, until individual dessert glasses. Let stand in a warm room until firm; then chill before serving. Mix the marshmallow topping with two tablespoons milk. When ready to serve the junket, top with the marshmallow mixture.

### Bay Line Rates Fixed

Fictitious Mileage Plan Used As Base For Charges

The Hudson Bay railway freight tariff, long awaited by western livestock men, went into effect Tuesday, April 26.

The tariff is on the Fort William basis and bases the freight rate on a fictitious mileage, 130 miles less than the actual distance of the haul.

This schedule has been objected to by the Saskatchewan traffic council on the grounds that points in the western provinces will not receive the same proportionate reduction from the flat rate as those nearer to the port.

The traffic council, suggested by the provincial government some time ago, addressed a resolution to the Dominion Government and the Canadian National Railways asking that the distributing town tariff rates be applied at a rate equivalent to 85 per cent of the prairie mileage rate. This reduced rate is at the present time in effect from distributing centres on the prairies.

#### Tip For Farmers

A farmer was delivering vegetables to an asylum, when a patient asked:

"You're a farmer, ain't you?" he asked.  
The farmer allowed that he was.  
"I used to be a farmer once," said the inmate.

"Yes."

"Yes. Did you ever try being crazy?"

The farmer never had, and started to move on.

"Well, you should try it," was the ex-farmer's parting shot. "It beats farming hollow."

### Winnipeg Newspaper Union

By Annette

DELIGHTFULLY BECOMING TO THE HEAVIER FIGURE IS SIMPLE STRAIGHT LINE DRESS

Here are charming lines for the matron. And into the bargain, it is a very simple dress to fashion. The bodice is given a cross-closure effect, so slimming, through a neat inset vest, that scallops its outer edge. The skirt has two little plaits at either side of the center-front, creating a center panel to give the figure height and grace.

It can be made with short or long sleeves, just as you please about it. It's very smart in printed crepe silk with plain contrast.

There are many rayon novelties smart to fashion it for home wear. Sheer woollens are also suitable. Style No. 942 is designed for sizes 38, 40, 42, 44, 46 and 48 inches bust. Size 38 requires 4½ yards of 35-inch material with ¼ yard of 35-inch contrasting.

Price of pattern 25 cents in stamps or coin (cash is preferred). Wrap coin carefully.

### SUNDAY SCHOOL LESSON

MAY 8

#### ESAU SELLS HIS BIRTHRIGHT

Golden Text: "Every man that striveth in the games exerciseth self-control in all things."—1 Corinthians 9, 25.

Devotional: Genesis 25:27-34.

Devotional Reading: Hebrews 12, 14-17.

#### Explanations and Comments

Isaac's Sons Contrasted, verses 27, 28.—Esau and Jacob, twin sons of Isaac and Rebekah, were wholly different in appearance and character. Esau, the first-born, was rough and hairy; he loved the outdoor life, and was a skilful hunter. He was the favorite of his father, who, as is often the case, preferred the son who was so unlike him in every way. Jacob was smooth-faced, and handsome, a quiet stay-at-home, and he was the favorite of his mother. From these statements of parents' favoritism any one could foretell future trouble.

Jacob's Craftiness, verses 29-31.—One day Jacob borrowed some pottage, a dish made of lentils or small beans and is to this day much liked in Syria; and when Esau came in from the field weary and faint, he asked Jacob for it. Notice that the word "pottage" in Esau's request is the same as in our text, showing that it is supplied from the context and is lacking in the Hebrew. Literally, the translation is "Feed me with the red," this red, and it strikingly shows Esau's hunger and impatient eagerness for the savory dish. Therefore was his name called Edom, which means "Red." Esau had red hair and complexion, and it was red pottage for which he sold his birthright: all these things combined to give him this name. He is the reputed ancestor of the Edomites.

"Sell me first thy birthright," was Jacob's answer to Esau. By the birthright he meant the rights and privileges of the firstborn which later, in his blessing of Jacob, the father as head of the family, who exercised a kind of priesthood, and a double portion of the father's property (Deuteronomy 21:17). The father's chief blessing was given to the firstborn son. It included the covenant blessing first given to Abraham—the promise of a great posterity, of the inheritance of the land of Canaan, and the blessing of Jehovah. It was a sharp bargain that Jacob drove, taking a mean advantage of Esau's weakness, but he was right, for he appreciated the value of the birthright as Esau could not, for Esau was a man of the flesh, of the present moment. Enjoy the present and let the future take care of itself, was his rule of life.

"And all the craft and duplicity of Jacob's nature, there was immense scope for the exercise of his religious faith. He could draw aside the veil of the unseen, and weigh its promises, and compare its treasures with the shadows of death. He could dream angel-haunted dreams, that drew a mystic ladder over the abyss of space, linking all worlds. And while Esau was occupied with pleasure, Jacob could feel within him the strange stirrings of a nature which could not be satisfied with anything within the narrow limits of his tent; but which yearned for that spiritual heritage which was summed in the word 'birthright.'—F. B. Meyer.

Esau and the Polly, verses 31-34.—"I am tired to death," is an expression we often hear and Esau gave utterance to the same feeling with the same amount of meaning. "Behold, I am about to die," he exclaimed, "and what profit shall the birthright do to me?" What he cared for now was the satisfying of his present hunger.

"We barter life for pottage! sell true bliss For wealth, or power, for pleasure or renown! Thus, Esau-like, our Father's blessing miss."—(Keble).

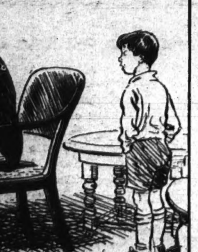

It takes No Extra Time To say "Thank You."

To think kindly of your associates. To be orderly and neat. To hold your tongue.

To smile when you meet your friends. To take orders from superiors cheerfully.

To thank God for each day's blessings.

Four hundred plants have been found that eat insects.

SON (to father, who has been studying his pass-book): "Why do they call your bank book a 'Pass-Book'?"  
FATHER (a bridge agent): "Because it's too weak to make a call on."  
The Humorist, London, England.

### The Fanning Mill

Valuable Information Regarding Its Use and Operation (By H. G. L. Strange)

Seed drill surveys that have been made by the Dominion Seed Branch show without a doubt that a vast amount of weed seeds and other impurities are seeded into the ground each year with seed grain. Investigation further shows that most of this grain had been cleaned through fanning mills. The reason for these impurities being present in the seed is unquestionably due to the fact that it is very difficult to clean grain properly with the average fanning mill.

Based on the experience of many years of cleaning Registered Seed to the high standard of perfection required by the Seeds Act, the writer has worked out a method of cleaning seed with a simple fanning mill that will be found to be simple and effective.

In the first place only two screens are really needed for a fanning mill. A top screen that will scalp off large grains, pieces of straw and parts of threshed heads, and a smaller screen underneath that will allow the weed seeds, small cracked grains, etc., to pass through, leaving on top of the bottom screen only the large plump kernels required for seed. A fanning mill, using two good screens as described, will do just as good work as will those fitted with many of screens—perhaps better. Some of the large kernels, however, will be light, so that a strong air blast is necessary to blow them out. The mill should be turned at such a speed that will produce such a blast of air as will blow over at least 10 per cent of the grain; then it is certain that all light kernels are being separated.

If a fanning mill would continue to operate in this manner no weed seeds or other impurities would be present in the final cleaned seed. Unfortunately the average fanning mill will not continue to work in this fashion for more than a few moments, the reason being that the screen, both top and bottom, particularly the bottom screen, very quickly plug up with small kernels, and so allow the weed seeds and impurities to pass over with the good grain.

Some fanning mills are fitted with devices that keep the screen clean, such as tapping hammers or travelling brushes. These devices, however, are very expensive and very few can afford them. A fanning mill without these extra costs can be made to do good work providing the operator will stop the machine at least every five minutes, remove the screens and carefully clean them with a stiff brush. If this is not done it is quite certain that most of the work of fanning grain will be wasted and that the seed will contain many weeds and other impurities.

Besides cleaning the screens frequently it is, of course, necessary to see that the grain is fed very slowly and evenly on to the screens and that the machine is also turned evenly, but fast enough to produce, as mentioned above, a strong blast of air.

All grain should be put at least twice through the fanning mill in this manner, feeding slowly each time. It is the writer's experience that the capacity of most fanning mills is estimated by the manufacturers on a basis of grain cleaning for market rather than for seed cleaning. Most machines, for instance, that are listed at 25 bushels an hour, will do a good job on seed at about eight bushels per hour only, and if more is forced through it is at the expense of good work. The machine of course must be set level and should be applied or fastened solidly to a good stout floor and facilities should be provided to see that there is no chance scalping or screenings from either the screens or the wind becoming mixed with the good cleaned seed.

Fanning mills with screens only separate according to the difference in width of kernel. To separate kernels of different lengths, that is to say, wheat from oats, etc., it is necessary to use what is called an indentation machine such as a Carter Disc or Toner machine. The most perfect job of seed cleaning is offered by travelling or stationary plants in which the grain is first passed through a good fanning mill with a strong blast of air, then through either an indent cylinder or a Carter Disc. The average fanning mill, using screens alone will not separate wheat from oats or vice versa.

#### Radio On the Desert

Camel passengers crossing the Arabian desert may listen to radio sessions from the radio station on the backs of "ships of the desert." The camels are reported from Aden as being up well, even though loudspeakers are being placed near wells at regular stopping places.

### "YES, I AM 40 YEARS OLD!"

says Irene Rich

"YES, I am 40 years old. I don't mind confessing it a bit," says Irene Rich, "and I have two grown daughters of whom I am very proud. A screen star never worries about birth- years, you know."

But, in Hollywood, they guard complexion beauty above all else. They know it says youth quicker than anything else.

How does this lovely star guard complexion beauty? Just as so many Hollywood actresses (65-80% of the 694 important ones!) "I have used Lux Toilet Soap, regularly for years," she says, "and am very grateful for it."

Surely you will want to try this fragrant, white soap. The career of dollar-a-minute French soap for 10c!

IRENE RICH and her two daughters (left to right) are pictured in the Lux Toilet Soap advertisement. One of Irene Rich's recent photographs.

### Salada Reduces Tax Prices

Salada Tea Company Makes Important Announcement

An announcement of a price reduction has just been made by Salada Tea Company of Canada, Limited, amounting to 10 cents a pound. Mr. A. M. Wilson, manager of the Company, who has been in Winnipeg for the past few days conferring with Mr. R. M. Gibson of Messrs. Gibson, Paterson, Limited, the Company's western representatives, has this comment to make on the new prices announced by his Company: "We are cheaper in the primary markets in London, England; Colombo, Ceylon, and Calcutta, India, although best quality teas have not declined in price to nearly the same extent as the lower grades. Nevertheless, the Salada Company, while rigidly maintaining the quality of its product, has reduced prices twice within the last two years, so that today the consumer is paying 25 per cent less for this well-known product than he did in 1930. The price reduction had been contemplated for several weeks, but was postponed until after the announcement of the Dominion budget proposals in the House of Commons. Tea merchants expected a further tax on tea, but, as there was no additional import announced, they were able to make downward revision of 10 cents on the pound, or 8 cents on the half-pound."

### Device Would Be Welcomed

Maintains Even Temperature Eliminates Dust On Trains

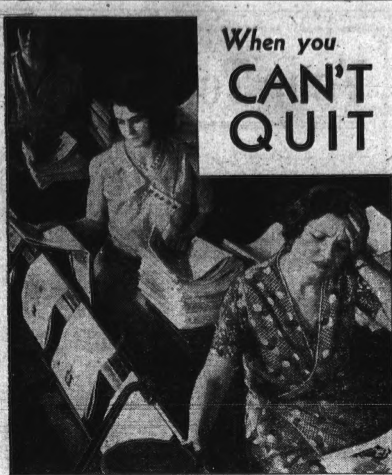

The Chesapeake and Ohio railroad recently announced inauguration of a new fast passenger train, the George Washington, on which every coach and pullman will be fitted with an elaborate air conditioning apparatus. Even temperatures will be maintained constantly, dust will be eliminated, and the passengers will be kept comfortably cool in summer.

That such devices will become common equipment on all crack passenger trains at all times seems probable. That they will, in addition, come into general use in homes and apartments is also probable.

"How do I get to the market?" "Follow me, that is up, turn to the left at the third tax booth, leave the exposed gas pipes on the right, and, when you come to the place where the tramlines are up, that is the market."—Lustige Kölner Zeitungen, Cologne.

## When you CAN'T QUIT

A HEADACHE is often the sign of fatigue. When temples throb, it's time to rest. If you can't stop work, you can stop the pain. Aspirin will do it, every time. Take two or three tablets, a swallow of water, and carry on—in perfect comfort.

Don't work with nerves on edge or try all day to forget some nagging pain that Aspirin will end in a jiffy! Aspirin can do you no harm; just be sure that it is Aspirin with Bayer on each tablet.

In every package you'll find proven directions for headaches,

colds and sore throat; neuralgia, neuritis, etc. Carry these tablets with you, and be prepared. To block a sudden cold on the street; quiet a grumbling tooth at the office; relieve a headache in the theatre; spare you a sleepless night when nerves are "jumping."

And no modern girl needs "time out" for the time of month! Your little box of Aspirin tablets is sure relief for all such pain.

Take Aspirin for any ache or pain, and take enough to end it. It can't harm you. At drug stores everywhere. Made in Canada.

## THE HOUSE OF DREAMS-COME-TRUE

—BY—  
MARGARET FEDLER  
Author of  
"The Splendid Secret," "The Herald of Far East,"  
Hodder & Stoughton, Ltd., London.

### CHAPTER XX.

The Shadow of the Future

Gold of gorges and purple of heath-  
er, a shimmering haze of heat, quivering  
above the undulating green of the  
Moors, and somewhere, high up in the  
cloud-flecked blue above, the exultant,  
gleamingly aware carol of a lark.

"Oh! How utterly perfect this is!"  
sighed Jean.

She was lying at full length on the  
springy turf, her chin propped in her  
hands, her elbows denting little cosy  
hollows of darkness in the close mesh  
of green moss.

Tormarin, equally prone, was be-  
side her, his eyes absorbing, not the  
open vista of rolling moor, hummocked  
with jagged tops of brown-grey  
stone, but the sun as it rioted through  
a glory of red-brown hair and touched  
changeling gleams of gold into  
topaz eyes.

There was a queer little throb in  
Jean's voice, the low note of almost  
passionate delight which sheer beauty  
never failed to draw from her. It  
plucked at the chords of memory, and

## Reduce the Acid

SICK stomachs, sour stomachs and  
indigestion usually mean excess  
acid. The stomach nerves are  
over-stimulated.

Too much acid makes the stomach  
and intestines sour. Alkali kills acid  
instantly. The best form is Phillips'  
Milk of Magnesia, because one harm-  
less dose neutralizes many times its  
volume in acid. For 50 years the stand-  
ard with physicians everywhere.

Take a spoonful in water and your  
unhappy condition will probably end  
in five minutes. Then you will always  
know what to do. Crude and harmful  
methods will never appeal to you. Go  
prove this for your own sake. It may  
save a great many disagreeable hours.  
Be sure to get the genuine Phillips'  
Milk of Magnesia prescribed by  
physicians in correcting excess acids.

W. N. U. 1840

to be extraordinarily good," replied  
Nick. "She is a lady of property,  
too, since she has acquired a few  
square yards of the Moor from the  
Duchy and built herself a little shanty  
there. She resides in the name of  
Keturah Stanley."

"I should like to have my fortune  
told," murmured Jean meditatively.  
"I'll take you," volunteered Blaise.  
There was a suddenly alert look  
in his face, as though he, too, would  
like to hear Jean's fortune told.

"We'll all go, then," said Claire.  
"You must let Keturah tell yours as  
well, Blaise."

He shook his head.

"Thanka," he answered briefly.  
"I know my fortune quite as well as  
I have any wish to."

Tormarin's curt refusal somewhat  
quenched the gaiety of the moment,  
and rather soberly they all four made  
their way down the slope to where,  
in a little sheltered hollow at the foot  
of the tor, the sunlight glinted on  
the corrugated iron roofing of a tiny  
two-roomed hut, built of wood.

Outside, sitting on an inverted pail  
and compositely putting away at a  
clay pipe, they discovered a small  
shrivelled old woman, running her-  
self, like a cat, in the midday warmth.  
She lifted her head as they ap-  
proached, revealing an immensely  
old, delicately featured face, which  
which might have been carved out of  
yellow ivory, save for a network of  
wrinkles, colourless save for the  
piercing black eyes that sparkled be-  
neath arched black brows, while the  
fine-cut nostrils and beautifully  
moulded mouth spoke unmistakably  
of race of the old untainted blood  
which in some gypsy families has re-  
mained unadulterated, through  
countless generations.

There was an odd dignity about the  
shrunken, still upright figure as she  
rose from her seat—the freedom of  
whose dress was a network of  
the yoke of established custom,  
whose kingdom is the sun and sea and  
earth and air as God gave them to  
Adam—and when the visitors had ex-  
plained their errand, and she proceed-  
ed to answer them in the soft, sing-  
ing accents of the Devon dialect, the  
literate speech seemed to convey a  
strange sense of intimacy.

Claire and Nick were the first to  
dare the oracle. The old woman  
beckoned to them to follow her into  
the cottage, while Tormarin and Jean  
waited outside, and when they em-  
erged once more, both were laugh-  
ing, their faces eager and half excit-  
ed like the faces of children promised  
some indefinite treat.

"She's given you luck, then?" asked  
Jean, smiling in sympathy.  
The gipsy interposed quickly.  
"Tezn't for me to give nor take  
away the luck. But I know that, back  
of their black clouds of the young  
lady's so mortal fears of the sun's  
shin't but what I tell 'ee, me dear—  
nodding encouragingly to Claire,  
while her keen old eyes narrowed to  
mere pin-points of light—"you'll see  
it, yourself—and afore another year's  
creep 'y'."

"Yes, say! You'll know  
then as I telled 'ee t'rew."

Then, with a sudden gesture that  
summoned Jean to follow her, she  
disappeared once more into the inter-  
ior of the hut.

Jean hesitated nervously in the  
doorway. For a moment she was con-  
fused of an acute feeling of distaste  
for the impending interview—a dread  
of what this woman, whose eyes  
seemed the only live thing in her old,  
old face, might have to tell her.

"Come with me," she appealed to  
Blaise. And he nodded and followed  
her across the threshold.

The scent of a fire came warm  
and fragrant to her nostrils as she  
stepped out of the sunlight into the  
comparative dusk of the little shanty,  
mingling curiously with an aroma of  
savoury stew which issued from a  
black pot hung above the hearth,  
bulbous and chuckling as it simmered.

The gipsy, as though by force of  
habit, gave a stir to its contents and  
then, settling herself on a three-legged  
stool, she took Jean's hand in her  
wrinkled, claw-like fingers and peered  
at its palm in silence.

"Your way bain't so plain to see as  
'other young lady's," she muttered at  
last, in an odd, sing-song tone.  
"There's life an' death an' fire an'  
flame afore you see the sun shinin'  
clear. And if it be to ye take the  
wrong turnin', you'll never see it.  
And there'll be no posties to guide

## "No repairs in 22 years," says home owner

"Visitors are delighted with the  
wireless operation of my doors,"  
says a home owner of Monongah,  
West Virginia. "The locks and hinges  
have been in active service 22 years,  
and during this time I haven't spent  
a cent for repairs. I've never used  
anything but 3-in-One Oil today.  
Many housewives who pride them-  
selves on the spotless appearance of  
their homes are careless about the  
lubrication of hinges and locks. Try a  
few drops of 3-in-One Oil today  
and see how quickly it brings out  
spot dirt and squeaks. For 3-in-One,  
a blend of animal, mineral and vege-  
table oils, is distinctly different from  
ordinary oil; it cleans and protects as  
well as lubricates."

For 35 years 3-in-One has been  
recognized as the best oil for sewing  
machines, vacuum cleaners, lawn  
mowers, hinges and general household  
lubrication. Insist on 3-in-One Oil.  
At good stores everywhere. For your  
protection look for the Trade mark  
"3-in-One" printed in red on every  
package.

"See, Tex your awn sawl must tell 'ee  
how to walk through the darkness.  
For there's darkness comin' . . .  
black darkness!"

(To Be Continued.)

## Books Mailed To Blind

Free Postage Allowed Large Lending  
Library in Toronto

Toronto has the largest of the three  
largest "blind" libraries on the continent.  
More than 12,000 volumes in Braille  
and 2,555 in Moon's type fill the  
shelves of the library of the Canadian  
National Library for the Blind.

"Blind people do not call for their  
books, like ordinary subscribers do,"  
said S. C. Swift, the blind librarian,  
who has read every volume on the  
shelves. "Their books are ordered  
and mailed to them by parcel post  
in special cartons." He explained  
that there was free postage for  
such material in the mails due to the  
efforts of Sir William Mulock when  
postmaster-general.

Blind people read many books, said  
Mr. Swift, who estimated that the  
blind reader might read one or two  
volumes each month, while a rapid reader  
covered from 15 to 20 in the same period.  
Each ink-print book required from  
three to four volumes in Braille, he  
said, and an even greater number in  
Moon's type. The latter was used by  
younger blind people, whose fingers  
were more sensitive and not so easily  
tired.

## THE RHYMING OPTIMIST

By Aline Michaels

### THEFTS

For some loss, sorrow is but brief;  
For some, it returns supreme,  
But, ah! I would not be the thief  
Who steals away a dream!

Perhaps, who knows, if sorely pressed,  
And with a want and need,  
By some fierce, wild urge possessed,  
I might steal meat or bread.

The precepts of the years might wane,  
The thought of time and mine,  
Before stark hunger's gnawing pain  
Obscured life's design.

For none can know his strength until  
Temptation comes his way,  
Or take the measure of his will,  
Untested by the fray.

Some loss is but a falling leaf  
Upon autumn's wind-blown tree,  
But, ah! I would not be the thief  
Who steals a dream away!

## Fails in Its Purpose

Famous Wall Of China Does Not  
Keep Out Invaders

"The Wall of Ten Thousand Li,"  
that massive rampart built hundreds  
of years ago by the Chinese to keep  
out invaders, has again failed in its  
purpose. This is said to be the great-  
est piece of constructive labor ever  
accomplished by the human race. The  
wall is 1,700 miles long, has an average  
thickness of 20 feet and height  
22 feet with towers about 40 feet high  
at intervals of some hundred yards.

Nights Of Agony come in the train  
Of darkness. The victim cannot lie  
down, and sleep is driven from his  
brain. What grateful relief is the  
immediate effect of Dr. J. D. Scrogg's  
Asthma Remedy. It banishes the  
frightful conditions, clears the pas-  
sages, and enables the afflicted one  
to again sleep as soundly and restful-  
ly as a child. Insist on the genuine  
at your nearby drugist.

### A Matter Of Years

A little fellow took up his grand-  
mother's spectacles and put them on.  
Then peering through the glasses he  
frowned and said: "But I can't see,  
grandma, there must be something  
between my eyes and the glasses.  
What is it?"

"Seventy years my child," the old  
lady answered.

Nearly 400 types of cheese are  
produced in the United States.

## Inventors Keep Busy

Automatic Oyster Opener Prize Of  
This Year's Exhibition

Double-action fly swatter—non-  
skidable soap-bell-ringing fishing  
rods—toothpaste tube collapsers—  
automatic oyster openers—adjustable  
baby feeders.

These are among the 5,000 inven-  
tions arriving at Grand Central Pal-  
ace for the fourth international pa-  
tent exposition.

The new fly-swatter operates with  
a scissors movement and eliminates  
the possibility of spots on walls or  
furnishings.

The soap turns out to be a sponge-  
rubber mitten with a ventilated palm  
in which liquid is enclosed. The  
suds force their way through. The  
toothpaste tube collapsers in two  
rolls turned by a small crank and  
forces out every last drop of the  
paste.

One fishing rod has a bell attached  
and can be stuck in the ground  
while the angler drowzes. When the  
fish bites the bell rings.

The automatic oyster opener is  
really the prize of the show. Its in-  
ventor is Oscar Abbatte, of Balti-  
more, Md. The device is operated  
by means of a crank which forces  
a flat, spear-shaped knife between  
the shells of the oyster, opening 25  
a minute.

The baby feeder is merely an ad-  
justable bottle which can be attach-  
ed to the crib and never eludes the  
reach of the occupant.

## To Observe the Eclipse

British Women To Travel To Canada  
In Interests Of Astronomy

Several women will accompany  
three parties of astronomers who are  
going from Britain to Canada to ob-  
serve the eclipse of the sun, which  
will be visible there on August 31.

An official of the Royal Astronom-  
ical society said to a reporter:  
"There are about 70 women Fellows  
of this society. They are not all in  
Great Britain, a number of them are  
American."

"Women now take a great interest  
in astronomy." Observations of the  
eclipse, which will last 90 minutes, will be made  
from Trent, North Quebec, Magog,  
Quebec, and Montreal.

The three British parties will  
represent the Royal Observatory,  
Greenwich, the Imperial College,  
South Kensington, S.W., and Cam-  
bridge.

## Fire Prevention

Extra Precaution In Needed This  
Year On Account Of Fire-Rang-  
ing Forces Being Reduced

In several of the Canadian provin-  
ces this year the fire-fighting forces  
will be seriously reduced on the  
grounds of economy. The fire hazard  
cannot be predicted, hence a call is  
being made by the Canadian Forestry  
Association to exert the utmost vigilance  
this year and supplement to the utmost  
the shortage of fire rangers. Forest  
fire prevention for many years past  
has been making great strides owing  
to the splendid co-operation of the  
people who work in or travel through  
the bush. The approaching  
spring and summer will demand the  
greatest precautions by every Cana-  
dian if catastrophe is to be averted.

## A Real Masterpiece

Total Length Of Forth Bridge Exceeds  
8,000 Feet

Sydney Bridge is constantly refer-  
red to as the "largest in the world,"  
whereas it is only the largest single-  
span bridge. This span measures  
1,650 feet. On the other hand, each  
of the two main spans of the Forth  
Bridge is 1,710 feet, while its total  
length exceeds 8,000 feet. The main  
structure could swallow three Sydney  
bridges. Without minimizing a won-  
derful engineering feat, the Forth  
Bridge surely remains man's most  
majestic mechanical masterpiece.

She—Why did the land agent speak  
of that property as a parcel?

He—Because it is tied up, I sup-  
pose.

The U.S. army and navy have 12  
standard sizes of flags.

## ACIDITY FOR 10 YEARS Before he Found the Remedy

Many people endure suffering un-  
necessarily. This man did. If he had  
known ten years ago what he knows  
to-day, he would have been spared a  
great deal of suffering.

"I feel I must write a few lines in  
appreciation of your medicine, Salts.  
I have suffered for 10 years from  
chronic acidity of the stomach. I tried  
acidic cures, but I was advised by a  
friend to try Kruschen, which I  
have taken for the last two months,  
and I am pleased to say I have had  
no return of the acidity."—W. H.

Kruschen Salts swiftly neutralizes  
acid, takes all the torment out of it,  
and gently expels it from the system.  
And by stimulating your organs of  
elimination to perfect regular action  
Kruschen will prevent this harmful  
acid from ever accumulating again.  
After that you'll experience no more  
misery after meals. Kruschen will  
keep your inside clean and serene.  
Pure and invigorated blood will be  
sent coursing to every part of your  
body. You'll feel as thoroughly en-  
ergetic and well. As healthy and hearty  
as it is humanly possible to feel.

## Little Helps For This Week

"Thou hast put gladness in my  
heart."—Psalm iv, 7.

### Cheerfulness

Both expressions  
A settled, plume mynde.  
Which is not prone to grudging.  
From murmuring redness of face.

What indeed does not that word  
cheerfulness imply? It means a con-  
tented spirit; it means a pure heart;  
it means a kind loving disposition;  
it means humility and charity; it  
means a generous appreciation of  
the goodness of a most gracious God.  
—William Makepeace Thackeray.

It is a Dutch proverb that "paint  
costs nothing," such as its preserv-  
ing qualities in damp climates. Well,  
sunshine costs less, yet is finer pig-  
ment; and so of cheerfulness, the  
more it is spent, the more of it re-  
mains.—Ralph Waldo Emerson.

## The Written Word

The Difficulty Of Expressing Ideas In  
Prose Form

Writing the setting together of  
words and phrases and sentences to  
the expression of a thought, looks  
easy and yet there are many persons  
who find it no simple task to say in  
words precisely what they want to  
say.

Arthur Brisbane, editor and writer,  
from the heights of success, offers  
some useful advice. Learn to be crit-  
ical of your own writing. Use ad-  
jectives sparingly. Avoid "and" writ-  
ing. "If you write anything of which  
you are particularly proud cut that out,  
or at least cut it in two." Superfluous  
words and muddled thinking are the  
primary literary evils, according to  
Mr. Brisbane. "There is seldom such  
a thing as difficulty in writing," he  
says truly, "but there is often a dif-  
ficulty in clear thinking."—Ottawa  
Journal.

## Britain's Youthful Peers

Thirty-Two Are Not Old Enough For  
House Of Lords

Britain has 32 peers who cannot  
take their seats in the House of Lords  
because they are not of age. Many  
bearers of old titles are still playing  
with their blocks, among them being  
Lord Wrexhall, three, and Lord Mon-  
tagu, of Beaulieu, five, Lord Gains-  
borough is eight, Lord Haig, son of  
the late British Commander, is 13.  
The Earl of Shrewsbury and Talbot,  
who is premier earl in the peerages  
of both Lord of England and Scotland, is  
17, as is Lord Gormanston, premier  
viscount of Scotland.

Persian Balm—Invaluable to the  
whole family. To the mother, a flow-  
less aid to loveliness. To the child  
a soothing, healing balm. And to the  
father, a splendid hair-dressing and  
cooling shaving lotion. Persian Balm  
tonifies and refreshes the skin. Makes  
hands delightfully soft and white.  
Indispensable to dainty women. A  
little gentle rubbing and it is absorb-  
ed by the tissues, making the skin  
truly rose-late in texture.

## First Channel Swim

The first English Channel swim was  
made in 1876 by Captain James Webb,  
of England. He completed the dis-  
tance in 22 hours and 45 minutes.

## Nerves A Complete Wreck Sat Up Half The Night

Mrs. John Rose, Dark Lake, Ont., writes:—"I was  
troubled so much with my nerves I was a complete  
wreck."

I could not do my work, and would have to sit  
up half the night on account of not being able to  
sleep.

One day a friend recommended Milburn's Heart  
and Nerve Pills. I took one box and got relief,  
and by the time I had taken six boxes I was as well  
as ever."

Price 50c a box

Get at all drug and general stores, or mailed direct on receipt of price by The T. Milburn  
Co., Ltd., Toronto, Ont.

## for SPRAINS

## MOUNT BADEN-POWELL

One of the many unique honors conferred upon Lord Baden-Powell was the naming after him, by the United States Geographical Board of a mountain in Washington, and the Board's statement: "We are more than pleased to name this American mountain, peak, in honor of Lord Baden-Powell, who, because of his splendid achievements in giving to the world a movement for the youth of all lands, may well be considered a world citizen."

## DENOUNCES NEWSPAPERS

Mayor Webb, of Winnipeg, who has received more than his share of publicity in the past few years—and likes it, too, by the way—seems to have fallen out with newspapermen. The other day he propounded a plan which follows:

He would put all newspapers out of operation and leave proprietors, editorial writers and reporters to starve—"just to see how they'd act then."

In announcing his plan to a meeting, Mayor Webb said:

"We have newspapermen that go deliberately out to misrepresent the news. I wish we could do without newspapers for five years. It would be a good scheme to put a tax of five cents on every newspaper issued."

"I wish the proprietors of newspapers had to go hungry," he continued. "I wish some editorial writers had to go hungry. It would like to see some reporters hungry, starving—not knowing where their next meal is coming from. Then they would probably report the news correctly."

What a lovely time all the rumors would have following around the country unchecked if Mayor Webb had his way! The backyard fence gossipers would have things all their own way. Just figure out what you would do without your favorite newspaper.—Lethbridge Herald Right Hand Corner.

## FEWER AND BETTER TOWNS

It would appear that the tendency of future development in the up-building of our country will be towards fewer and better towns and villages. Our provincial life was planned for horse drawn vehicles. In the midst of that development the automobile age commenced. The result has been a drain of population from those towns and villages which lacked strategic locations.

Fewer and better towns and villages would be of advantage to the agricultural life of the province. These centres of population could be built up to give real service to the adjacent countryside, in the way of better schools, hospitals, public libraries, theatres, stores, agencies, professional services and newspapers. In other words, a town or village would become a real community centre.

The automobile is here to stay and the future history of our towns and villages will be built on the basis of this means of travel. Those communities which have progressive business and professional men among their inhabitants—people who give the highest type of service at the most reasonable cost—will grow steadily, leaving the backward towns and villages to slowly perish by the roadside.—Hanna Herald.

Mrs. Herridge, wife of Hon. William D. Herridge, Canadian minister to the United States, and only sister of Prime Minister R. B. Bennett, gave birth to a son at Ottawa on April 28.

TEN COMMANDMENTS  
FOR THE TRADE

1. If thou hast ought to sell, go by way and sell it. Keep thy tongue from evil speaking. Thou shalt not say "Hymns of Hate."

2. Thou shalt speak good of thy wares, but thou shalt not cry the goods of thy competitor; for if ye destroy each other, what doth it cost thee?

3. Thou shalt ignore thy competitor, even as thou prayest to be ignored.

4. Thou shalt not wash thy soiled garments in the temple of trade, for in so doing thou deprivest the laundress of much business.

5. Thou shalt not lie about thy competitor's wares, lest he prove to be a more plausible liar than you.

6. Thou shalt not be a gentleman if thou canst, if thou canst not then halt thou exert thyself to give a plausible imitation.

7. By the virtues of thy wares thou shalt sell them. If thy tongue eloquently in slander, leave thy trade and go into politics.

8. If thou wouldst sell thy goods, thou shalt advertise; and thou shalt pay thy gold for it, for lo! the printer is entitled to his reward.

9. Thou shalt not deceive thy customer. Thou shalt not fill his belly with strong drink. For the wine leadeth away, but the memory of the next-day lingereth.

10. Thou shalt be rewarded according to thy merits; the sins of thy competitor shall avail thee nothing; for what thou decriest as faults may be virtues, which make thee envious.

## BUSINESS AND ADVERTISING

The other day a purchase was made in a well-stocked store, the purchaser being waited on by the owner. Things looked quiet and the purchaser asked about business. He was told that "business was rotten."

He then asked if any advertising was carried in the local paper. The merchant replied that he did not think it advisable to incur any extra expense during the present financial stringency.

Ye Gods and little fishes! What nonsense to be uttered by a business man as a weak excuse for his own failure to help himself and his business!

Successful business men recognize the supreme importance of newspaper advertising. They realize that advertising is a service due the citizens from whom they expect trade, and the better they perform that service the more trade they attract. Remember, "A drop of ink makes millions think."—North Hastings, Ont., Review.

## WHEAT TO RESIST DROUGHT

Resistance to drought is a new wheat breeding project which has been undertaken by O. S. Amodeo, University of Alberta. Over a period of years, losses due to drought are probably as great as all the plant diseases combined. It has been estimated that during each of the last two years, the crop has been reduced by drought by 75 to 100 million bushels. Owing to the failure of crops to become established there is also the enormous loss in fertility due to soil drifting and the free growth of weeds. The National Research Council has given assistance in carrying out this project, which will be under the direction of the associated committee in grain research. Except for some studies made at the University of Alberta on the fundamental nature of drought resistance in plants, little has been accomplished in Canada, but Russia has been intensively studying the problem for some time.

In this work artificial chinooks are created by a machine. This machine has been described by Dr. T. A. Penor, of Russia, and similar equipment is being built at the University of Alberta. In this way everything including moisture, is controlled.

Premier Harrington, of Nova Scotia, opposes raising the seasonal indemnity, which at present is \$1,000.

BLAIRMORE UNITED CHURCH  
Rev. J. W. Smith, B.D., Pastor.

"Serve the Church that the Church May Serve You."

Sunday, May 5th, the G.I.T. groups in charge.

MOTHER'S DAY

11 a.m.—SENIOR SCHOOL Class as usual

2 p.m.—JUNIOR SCHOOL Class as usual

7:00 p.m.—PUBLIC WORSHIP in the new school hall. The service will be conducted by girls of the C.G.T. groups. The story "The angel's important business" will be told by Miss Flora McKinnon. The minister's home will be: "A Mother's Task." Mrs. Bannan will sing "Jesus Lover of My Soul." Mothers' Day only comes once a year, so wear a flower and be present.

Announcements  
A T.A. and SALE of HOME BOOKS will be held in the new church hall on Saturday, May 7th, from 3 to 6 p.m. under the auspices of the Ladies' Aid.

WEDNESDAY, MAY 11 at 7:30 p.m., prayer service; a service for meditation and christian fellowship.

TENNIS—The church is considering the possibility of opening the tennis courts this summer, if sufficient persons join before May 9th. The scale of fees proposed is \$5.00 for men, \$3.00 for ladies; and school children, including high school \$2.50. Fees are payable to group leaders or Rev. J. W. Smith at once. If on May 9th there are not enough fees paid in to finance the project, the fees will be returned to those who have paid. If you want tennis, get busy.

ST. LUKE'S CHURCH NOTES  
Rev. A. S. Partington, B.A., Rector

Services Sunday, May 5th:  
Sunday school at 10 a.m. in the hall.  
Evening service at 7 p.m.

## FRIENDSHIP

If you walk as a friend you will find a friend

Wherever you choose to fare;  
If you go with mirth to a far strange land;

You will find that mirth is there.  
For the strangest part of this queer old world

Is that like will join with like;  
And who walks with love for his fellow man

An answering love will strike.  
If you walk in honor, then honest men

Will meet you along the way;  
But if you are false, you will find men false

Wherever you chance to stray.  
For good breeds good, and bad breeds bad—

We are met by the traits we show.  
Love will find a friend at the stranger's door,  
Where hate will find a foe.

For each of us builds the world he knows,  
Which only himself can spoil;

And an hour of hate or an hour of shame  
Can ruin a life of toil.

And though to the utmost ends of earth  
Your duty may bid you fare,

If you go with truth and a friendly heart,  
You will find friends waiting there.

—L.O.O.F., Selected.

## New Racket

A father said to his young daughter, aged eight: "What are you going to be when you grow up?"

"I'm going to be either an artist or a dancer," she answered, "because I don't think I'll be much good at this mother business!"

## IT IS STRANGE

It seems strange—it is strange—that every news story or item of a criminal nature sent out from this city or Nelson should be charged to the Doukhobors. Some evidence should be required before a person's character is blackened with the charge of a criminal act. Every resident in Canada is entitled to the protection of his good name. The police have been on the job for years in an attempt to ferret out the perpetrators of the numerous criminal acts that have been committed in these latitudes, and, apparently, so far they have been unable to connect the Doukhobors with a single one of them. When they secure such evidence, it will be time enough to suspect that the Doukhobors are responsible for the burning of the schools and other acts of violence that have taken place in the Boundary and Kootenay during the past two or three years. The fact that some Doukhobor property has lately suffered from these criminal acts has started some people in this community to reason in another direction. Might not these crimes be committed by an organized gang of lawless people in the hope of inciting the citizenry to mob violence against the Doukhobors. While The Sun is loth to believe that British Columbia harbors men of this low character, it is well to remember that great crimes against humanity have been committed in the past. If the Doukhobors are found culpable, punish them, but don't charge them with crimes that they may not have committed.—Grand Forks Sun.

You've Driven the

NEW PLYMOUTH  
with Floating Power

A Statement by Walter P. Chrysler:

In the NEW PLYMOUTH we have achieved more than I had ever dared to hope for. If you had told me two years ago that such a big, powerful, beautiful automobile could be sold at the prices we have announced... I'd have said it was absolutely impossible.

I have spent my life building fine cars, but no achievement in my career has given me the deep-down satisfaction that I derive from the value you get in this 1932 PLYMOUTH. To me, its outstanding feature is FLOATING POWER.

We already know how the public feels about this, last summer it was news, but today it is an established engineering achievement. In my opinion you will find the NEW PLYMOUTH the easiest riding car you have ever driven.

## District News

From Our Own Correspondents

### BELLEVUE HAPPENINGS

An unusually large crowd attended the whist drive and dance in the Oddfellows' hall on Thursday evening. Honors were won by Miss Ivy Johnson, ladies' first; Mrs. Elias Fisher, second; Norman Evans, gentlemen's first, and Martin Serra second. This was the first annual dance of the Tennis Club, and was put on to raise funds for the erection of the new tennis courts.

Mrs. Edward Fisher entertained a number of young friends on Friday evening. Whist was enjoyed the early part of the evening. Honors went to Miss Enes Chiaravanzo, first; Miss Evelyn Price, second; Miss Vera Bovio, consolation.

Charlie Anderson is back in town after a six months' sojourn around Vancouver.

The Mohawk Wildcats defeated the Bellevue Miners on the new ball diamond 19 to 2 on Monday evening. The Pass miners staged a parade and mass meeting at B. Bellevue on Saturday afternoon. Several speakers were heard from about three hundred followers.

The home of Sam Colgrass was razed by fire at an early hour on Tuesday morning. Mr. and Mrs. Colgrass were awakened by smoke and got up to investigate, finding the kitchen of the house a mass of flames. Neighbors helped to save the front room and bedroom furnishings. The home was partly covered by insurance.

Charlie Hunger, of Corbin, is visiting his father and brothers in town. John Hunger has been engaged as assistant cook at the Corbin boarding house.

Mr. and Mrs. McLean motored to Lethbridge Friday night, and returned Sunday night with a 1930 Chrysler sedan.

Mr. and Mrs. F. Padgett, Mr. and Mrs. John Shevels and Joe Shevels, were Lethbridge visitors on Monday. Albert Padgett had the misfortune to turn his car over in the Lethbridge coules while enroute to that city. The occupants were not injured, but were somewhat shaken up.

The West Canadian miners resumed work here on Wednesday morning. Howard Anderson, of Trail, B.C. is visiting his mother here, Mrs. George Jordan, senior.

The Bellevue miners were called scabs and various unprintable names by a large crowd of picketers from town, Blaimore and Coleman as they headed for work on Wednesday. No serious outbreak occurred, however. The Royal Canadian Mounted Police

kept the crowd in check and cleared roads to the mine.

### CORBIN HAPPENINGS

In a friendly game of football played here on Sunday, the proceeds of which were to go to needy miners at Coleman, Corbin took the lead from a penalty in the first five minutes. From then on until the half-time whistle, Coleman had the best of the play, but lacked finish around the goal, all their shots being high. Shortly after the beginning of the second half, Fleming scored for Corbin, putting them two in the lead, to be followed ten minutes later by Sherrocks. From then on until the final whistle, play was very ragged, and Coleman missed several opportunities that should have shortened the score. Outstanding players were the fullbacks on both sides, who were at all times up to their job. Final score: Corbin 3, Coleman 0. Team: Corbin—Herd, G. Oakley, R. Lilly, R. Jackson, Fleming, F. Jackson, Dawson, Hibbert, Ball, Bewick and Sherrocks. Coleman—Ford, J. Joyce, Griffiths, Burrell, Lloyd, Parks, Jack Anderson, W. Anderson, Jim Anderson, Williams and Hurst. Referee, R. Herd.

A mixed bridge party, sponsored by the Pythian Sisters and held in the B. & B. hall on Tuesday night, April the 26th, proved a real success. Seven tables of bridge were arranged, at which Mrs. R. Elliot won ladies' first, and Mrs. J. M. Barnes received the consolation. J. Kolinski was winner of gentlemen's first, and Mrs. R. Herd the booby.

The football club put on one of the most successful dances of the season on Friday last in the B. & B. hall. The Arcadians, of Coleman, furnished excellent music for the dancers.

### HILLCREST HAPPENINGS

Mrs. J. Tromminger left for Vancouver on Wednesday, where she intends to spend a short vacation.

A very successful social evening was held in the Catholic hall this week, under auspices of the Welsh Society. After a short programme, whist was played, prizes being awarded to Mrs. E. Rolfe, ladies' first; Mrs. R. Richards, second; Mrs. D. Grant, consolation. R. S. Locks, gentlemen's first; D. Jones, second. A light supper was served, followed by dancing till the early hours of morning.

Bob Cruickshank returned Sunday from Edmonton, where he has been attending university.

A large number of girls and boys took First Aid examination on Sunday, under examiners Dr. G. B. Rose and Mr. Greenhalgh, of Coleman. The instructors are Mr. and Mrs. H. Instone.

R. Stuchbery has accepted a position with the Mounted Police force.

The Catholic Society are holding a whist drive and dance in the Catholic hall here on Monday next.

The badges were presented to Boy Scouts on Thursday night by Scoutmaster A. Marks.

### COWLEY HAPPENINGS

On Friday last, a whist drive, sponsored by the Roman Catholic church, was held at the home of Rev. Father O'Dea. There were ten tables at play, and those winning prizes were: Miss Lea Lemire, ladies' first; Mrs. James Smith, consolation; Billie Ritton, gentlemen's first; Frank Pizola, consolation.

Arthur Tustian returned on Tuesday from Lethbridge, where he underwent a slight operation.

Mr. and Mrs. J. Bougerolle, who have been residents here for a couple of years, have moved to their ranch in the Porcupine Hills district, where they will engage in mixed farming.

George Baker, caretaker of the Cowley school, is at present cultivating

the trees in the school yard and making flower beds among them, where a variety of bright-colored flowers of the hardiest varieties will be planted.

### FAMOUS HOTEL MAY BE CLOSED

MONTREAL, April 22.—One of Montreal's most prominent hotels, the Place Viger, will be closed soon, it is expected.

The hotel was built in 1897 and derives its name from Viger Square, which it faces. Viger Square was named after a mayor of Montreal of a century ago. In its earliest years Place Viger Hotel became the Mecca and meeting ground of politicians, legislators, judges, clergy, governors and social leaders. The present Premier of Quebec, Hon. L. A. Taschereau, lived there for a number of years. His predecessor, Sir Lomer Gouin, was a constant visitor, and Sir Wilfred Laurier frequently stayed at the hotel. Judges have concentered over their decision within its walls and many a profound question involving the political life of the province has been thrashed out there.

Among the distinguished guests of the hotel was Lily Langtry, the great English actress, and in 1919, the city was host to the Prince of Wales in a great banquet staged in its main dining room.

### BAN ON U. S. VEGETABLES AND LIVE STOCK IN EFFECT

CTTAWA, April 29.—Bans on importations into Canada of livestock, vegetables, for human consumption, and numerous orders were placed against the states of California, Oregon, Nevada and Arizona by the Dominion Department of Agriculture today.

The embargo, order against the four United States districts is effective immediately, and was issued following the receipt of reports falling of an outbreak of foot and mouth disease in California. The order does not apply to fruits, but will operate against the shipment of vegetables which are unusually heavy into the Dominion at this season of the year.

### HITS AT SCHOOL ARITHMETIC

WASHINGTON, May 2.—Eighty-five per cent of the arithmetical instruction to school pupils should be eliminated, in the opinion of Dr. Robert K. Speer, of New York university. In a radio speech tonight, Dr. Speer said:

"Who cares if children are not proficient in complex fractions, arithmetical ratios, foreign exchange, arithmetical and geometrical progression, involution, square and cube root?"

"The fact of the matter is that a lot of the school curriculum, including arithmetic, is dead wood."

"If we teach all the children the arithmetic necessary in the following activities: Buying at a store, making change, reading, writing letters and travelling—we shall have covered a large percentage of their total use of arithmetic."

### COUNTER CLAIMS FILED

IN NEWFOUNDLAND St. John's, Nfld., April 19.—Claims for penalties totalling \$61,180 were taken out today against three members of the legislative opposition party by Hon. Dr. Alexander Campbell, minister with portfolio, who himself faces a suit for \$7,000 under provisions of the act invoked in the three claims.

Writs were issued by Raymond Gushue, solicitor for Dr. Campbell against J. G. Paddister, member for Bay de Verde in the amount of \$37,400; J. M. Tobin, representing St. John's East \$13,570, and Gerald Byrne, St. John's City East, \$10,120.

The claims are made under what is known as the Placement Act, which provides a penalty of \$230, recoverable by anyone suing for each time a member sits or votes in the assembly while receiving from the Crown emoluments additional to his seasonal indemnity or ministerial salary.

### INJUNCTION ISSUED IN BARBERING BUSINESS

His Honor Judge McNeill disposed of a matter in District Court chambers, Calgary, on Friday, affecting province people, arising out of the following circumstances:

In August 1927, Frank Seales bought from R. H. Anderson the good will of a barbering business then carried on by the latter, on condition that he would not re-enter the barber business in the Town of Strathmore for a period of five years from that date.

Notwithstanding that condition, R. H. opened up a barber shop in town on the 14th of April, and Seales applied for an injunction restraining R. H. from carrying on, which Judge McNeill allowed, whereby R. H. is restrained from carrying on either alone, or by agents or servants in co-partnership, or in name of any other person, or in any other way pursuing his trade as a barber in the Town of Strathmore, until trial of the action.

### AIR LINE DISTANCES

According to the Coleman Journal pigeon fanciers will find the following information regarding air line distances from Coleman to various points useful for reference. It was worked out by Mr. L. Lindoe, mine surveyor:

Macleod 51 miles, Lethbridge 76 miles, Taber 105, Bow Island 141, Dunmore 179, Maple Creek 231, Swift Current 304, Moose Jaw 406, Regina 447, Broadview 541, Winnipeg 789.

The Pincher Creek Agricultural Society have decided not to stage a fair this year.

Newfoundland's sale of newspaper to United States' market amounts to about \$7,000,000 annually.

We doubt if the Nelson Doukhobor auditors were any more nude than many of our Canadian ladies appeared to be but a few short years ago.

A Scotchman was advised by his doctor a few days ago to take a health trip around the world. He at once got into touch with the railway and stamship lines and found there was a cheaper way out. He decided to wait till death, have his body cremated and send the ashes around the world by parcel post.

"I went to church last Sunday. A collection was being taken up for some purpose. The preacher asked every one to give until it hurt. I don't believe that is a good rule. I know one of our head deacons who could buy out any of the members of the congregation, yet the giving of a quarter would occasion him more pain than the giving of a dollar would most any one else. I think the tightwads started this 'giving until it hurts' business."—Oak Grove B-mmer.

Although few people notice any reduction in population, it is apparently a fact that deportation of undesirable is going on slowly but steadily. Every so often a train is made up at the Pacific Coast and runs across the continent, picking up people en route who are not adapted to this country. Poles head the list as a rule, with Finns, Jugo Slavs, Czechs Slovaks coming next. There are some Swedes and Italians, and also an Englishman or Irishman included in the list of those who leave Canada for Canada's good.

Eight writs have been issued against members of the Newfoundland house of assembly, claiming penalties under the Legislative Act. Two of the writs were taken out by Hon. Frank Pike, M.L.C., one against Hon. F. G. Bradley, claiming \$18,400; the other against Frank C. Archibald, claiming a similar amount.

The other six were taken out by Archibald against the following: Joseph Fitzgibbon \$24,380; R. J. Smith \$18,400; Hon. W. W. Halfyard \$18,400; Joseph M. Green \$18,400; Hon. E. J. Godden \$24,380; and J. H. Scammell \$24,380. The remarkable feature about the writs is that they have been taken out by members of the government party against their confederates.

## A Quick Way

to....  
Restore  
an Estate

ARE you among the thousands who have suffered from the great depression? Have you had to make a hurried survey of your financial position only to find that you are worth less by thousands of dollars than you were? Do you realize that death compels a liquidation of securities at current values?

How can that situation be met?

You can instantly restore your estate to a healthy basis by taking out more insurance. The same way is to insure to the point of safety...at least.

Over five hundred million dollars of life insurance was taken out in the Sun Life Company last year—much of it by level-headed men who balanced their accounts by this simple method.

## SUN LIFE ASSURANCE COMPANY OF CANADA

Head Office: MONTREAL

## C. J. TOMPKINS

CROW'S NEST PASS DISTRICT AGENT

British silver coins to the number of 500,000,000, which were minted between 1920 and 1927, are slowly being withdrawn from circulation. They contain a large proportion of copper, which causes the coins to be yellow in color.

Dick Slugg observed the 29th anniversary of the Frank Slide by meeting old timers in Blaimore. Speaking of the slide days and years previous, Dick recalled large numbers of folks who we understood to have died 25 years or more ago.

Fifty-two wild geese were killed by a lightning flash at Elgin, Manitoba. Lightning was seen to strike into a large flock while they were passing over the town, and 52 tumbled to earth. They were picked up and distributed among the town people.

Added to the shortage of work at the mines the early part of the week was a shortage of marriage license forms. Parties coming in from British Columbia, with intention to end their troubles here, were obliged to go to Pincher Creek for that permit.

A recent issue of the Family Herald and Weekly Star contains an extensive description of the new national research laboratory just added to government buildings at Ottawa. Dr. H. M. Tory, former president of the University of Alberta, is president of the National Research Council of Canada. The staff of the new institution numbers 119.

### Politeness

A lady was entertaining the small son of a friend. "Are you sure you can cut your own meat, Tommy?" she inquired. "Oh, yes, thanks," answered the child politely. "I've often had it as tough as this at home."

My Glass, Watson!

"And when I kissed my wife I smelled tobacco."  
"You object to a woman who smokes?"  
"No; but she doesn't smoke."

### Down With Usurers

Teacher (much exasperated by one pupil): "Look here, are you the teacher in this class?"

Pupil: "No, sir, I'm not."  
"Then why do you keep talking like a numskull?"

### Fampering Junior

"What did you give baby for his first birthday?"

"We opened his money-box and bought the little darling a lovely electric iron."

Jack met his friend Sandy on the street.

Jack: "Sandy, I wonder if you could oblige me with a cigarette?"

Sandy: "But I thought you said you'd stoppitt smokin'!"

Jack: "Awe, well, I've reached the first stage. I've stoppitt buyin'."

### Change of Diet

It was the duty of Janet, the maid, to tie up Jeff, the house dog, every night before she retired. One night she failed in her duty, and next morning found Jeff loose.

He had played havoc with the contents of the larder. When the mistress heard the news, she inquired: "Has he eaten much, Janet?"

"Every blessed thing," replied the maid, "except the dog biscuits!"

### A Bit of an Error

The gentleman from London, with a distinctly Cockney accent, was catching his first glimpse of New York's skyline from the giant liner.

"Look," said his American fellow passenger, pointing to Miss Liberty, "New York and Liberty—as American as the bison itself."

"Well, my eye!" exploded the Briton. "Do you claim the jolly old bison as your own, too?"

"Surely," the American replied. "The bison is a species of the American buffalo."

"Hol Ho!" laughed the Londoner. "If I didn't always think the bison was something to wash your 'uns in."

## Balancing Life's Budget.

With the problem of balancing budgets occupying the minds of all people entrusted with the duties and responsibilities of government whether in the Federal, Provincial or municipal fields; with the same problem uppermost in the minds of the executives of all our large transportation systems, industrial enterprises and financial institutions; with every business man, big and little, every head of a family on salary or earning wages, even men and women out of employment, all engaged with the same problem, the thought intrudes itself: "Are people, individually and collectively, more concerned with the dollar-and-cents balancing of their material budgets than they are with the much more important balancing of their lives?"

It is important, of course, vitally necessary in fact, that people should balance their material budgets. If they do not, bankruptcy in business and financial disaster lies ahead. No individual, no corporation, no government, no nation, can go on indefinitely spending more money than they receive or have. Monetary budgets must be balanced; trade budgets must be balanced, that is, inasmuch as every import is likewise an export, and every export an import, these must balance, and if every nation insists on developing exports while refusing to receive imports, the world's economic structure is thrown out of balance and bankruptcy leading to disaster and ruin is inevitable.

But it is equally true, and a law of nature that cannot be ignored and dare not be defied without loss and suffering, that the budget of our very lives must be balanced. But inasmuch as disaster may not follow quite so quickly, and the payment of the penalty may be longer deferred, than is true in the financial world, most people neglect to properly balance their lives until it is too late.

In the struggle for material wealth, for success in business, for supremacy in political life, for victory in the field of sport, even to reach the top of the social ladder, what a vast number of people overlook and neglect the all-important asset of maintaining their physical health. Failing to do so, their lives are sadly out of balance, for of what avail is the accomplishment of their desires if the price to be paid is impairment in health, bodily vigor and strength undiminished? Achievement at such a price is too costly, and is, in fact, not achievement at all, but failure, because one cannot enjoy or long retain that which has seemingly been achieved.

How frequently has it happened that a brilliant student slumping at high marks and scholastic honors through too close application to his or her studies, and the burning of the midnight oil, has so sapped both mental and physical strength that in the crowning hour of learning achieved, and apparently with a life of great promise just beginning, collapse has come.

Others in the race for material things utterly fail to balance the budget of their lives by any intellectual studies or pursuits. They fail to balance their lives with the beauties of nature, or music, or good literature. They even neglect the taking of proper exercise and recreation. As a result of their unbalanced lives they become gross, self-centred, utterly selfish, and largely lost to all the finer things of life.

Man is a dual personality—a combination of body and spirit. If his life's budget is to balance, he must devote attention both to his body and its needs and to the development of mind and spirit. He cannot afford to neglect either the one or the other; neglect of one means not only that it will suffer but the other will also suffer.

The balancing of life's budget calls for an all-round development of body and of spirit, and of the mind which is partly of the body and partly of the spirit. A man may scoff at religion, he may profess to have no religion, but in so doing he merely advertises the unbalanced character of his life. He is less than a complete man. A man may be perfect physically, but if he neglects his mind and his spirit, he is merely a high type of animal. On the other hand, one who neglects his body and develops his mental powers to the exclusion of all else, is a freak, and even his mental powers become distorted and unreliable because he lacks the necessary contact with and appreciation of natural human forces.

It is only through a true balancing of life's budget that man can possibly reach his highest destiny of happiness, achievement and usefulness in this world.

### Where Licenses Are High

Motor car taxes are high in Germany, the average payment made by German motorists being \$150. Great Britain's average is \$120, while in America it is as low as \$32, which includes also the petrol tax.

### DR. HAMILTON'S PILLS

FOR HEADACHE, BILIOUSNESS, CONSTIPATION, INDIGESTION, KIDNEYS, LIVER, BOWELS.

W. N. U. 1940

## World Train Nurses For Mental Hospital Work

Alberta Psychologist Speaks Of Success In Treating Mental Cases

Combined training courses for graduate nurses, which would include as well as general hospital work a considerable amount of mental training was suggested by Dr. N. Paragor, Alberta psychiatrist, as one of the solutions to the present mental health problem at the recent session of the Alberta Association of Registered Nurses Convention.

The mental hospital nurse needs general training plus tact and good judgment to the nth degree, he declared.

Readjustment of the public viewpoint to the mental case, which is gradually taking place, is one of the greatest needs in dealing with the care of such patients, he said. It must be understood the patient is ill, as is the patient in the general hospital.

Dr. Paragor spoke of 25,000 patients in mental hospitals and 6,000 in mentally defective institutions in Canada. The age-old idea of an insane person entering the hospital and remaining behind closed doors for the remainder of his life is an untrue picture today. Sixty per cent. of the number admitted were discharged last year.

The day is not far distant when criminals will be treated as mentally ill persons and dealt with by psychological measures, the doctor believed.

## Plenty Of British Capital

Is Available In Canada For Sound Investment Purposes

Millions of dollars of British investment for the development of enterprise, where fair returns can be made for bonafide industrial projects, Major Gordon C. Home, official of the Empire Development Association, of London, England, stated at Victoria.

"There is plenty of capital in Great Britain, despite the difficult nature of times, looking for ordinary returns through investments in industrial and other undertakings, within the empire." Our great difficulty has been that worthwhile projects in the British dominions have not been drawn as closely to the attention of the motherland as might be desirable. One purpose of the Empire Development Association is to secure information of investment opportunities to be before the business community and encourage and develop such undertakings," said Major Home.

## Garnet Wheat

Mixture As Much As Seven Per Cent.

Allowed in No. 1 Northern. Since 1926 the grain inspection department has permitted as much as seven per cent. of Garnet wheat in No. 1 Northern, James D. Fraser, chief grain inspector, told the House of Commons Committee on Agriculture. That proportion would not affect the grade. In general, however, Garnet had been kept fairly well separated from other varieties.

Mr. Fraser had no opinion to offer as to whether Garnet should or should not be graded as a separate variety. His experience he had never received any complaint against No. 1 Northern on account of Garnet being contained therein.

## Oldest Official Retiring

Sir Edward Wallington, a member of the Queen's household, first as private secretary and then as treasurer since the accession of King George, is soon to retire from office. He is the oldest official in the royal household; was born in 1854. At one time he was private secretary to a succession of colonial governors, and came to be known as "Better Not" Wallington, due to his skill in heading off undesired visitors.

**It Testifies For Itself**—Dr. Thomas' Electric Oil needs no testimonial of its powers other than itself. Whoever tries it for coughs or colds, or constipation, for sprains or burns, for pains in the limbs or body, will know that the medicine proves itself and needs no guarantee. This shows why this Oil is in general use.

## Owe Much To Grenfell

It is forty years since Sir Wilfred Grenfell went to the Labrador and set about helping the distressed natives. Now, thanks to him, the coast has five hospitals, seven nursing stations, two schools, co-operative stores, pharmacies, trading centres, and children's homes.

## Many Licenses Needed

So many licenses are now required today that one Huntington man using a gun for shooting game, selling game, employing men, keeping a dog, carrying a gun, slaughtering horses, driving a car, owning a wireless set, running a car on the road, and piloting a plane.

## Gas in the Stomach Is Dangerous

Recommends Daily Use Of Magnesia

Gas in the stomach accompanied by a flat, bloated feeling after eating are almost certain signs of the presence of excessive hydrochloric acid in the stomach. This so-called "acid indigestion" is a dangerous condition because too much acid irritates the delicate lining of the stomach, and causes heartburn accompanied by serious stomach ailments. Food remains in the stomach, and the acid, instead of creating the dissolving power which dissolves the food, causes it to ferment, creating the gas which distends the stomach and impairs the normal functions of the vital internal organs often affecting the heart.

## The Flax Seed Industry

Farmers in Canada Are Giving It

Flax is a crop which is at present receiving quite a lot of attention by farmers throughout the Dominion. There are two principal uses for the crop, fibre and seed. Varieties giving the best fibre are not so well suited to seed production, and, at the present time, the bulk of Canadian production is devoted to flax-seed, which has reached an average of over 3,000,000 bushels annually. Some two and a half million bushels of this volume are used domestically in the manufacture of linseed oil. The varieties which are being specially developed throughout the Dominion at the present time are those which offer greatest value from the standpoint of quality of seed and high percentage of oil content.

## Historic Boulder Found

Believed One On Which Christ Stood To Perform Miracle

The boulder upon which Christ stood on the shores of the Sea of Galilee to form the miracle of the loaves and fishes, as related in the Bible, is believed to have been discovered at Taghba, near Tiberias, Palestine.

The stone was found in the centre of a fourth century church, recently uncovered, and is believed to have been beneath the altar. The church was one of the many built during the reign of Constantine the Great. Behind the stone was found a mosaic panel depicting in vivid black, red and yellow, some several layers of bread and two fishes.

## Cuts Electric Sign Cost

Large Economies Will Be Effectuated Through New Flashing Device

A new electrical flashing device, by means of which a wave of light is sent along a wire, instead of the need of any costly mechanically moving parts, is expected to effect large economies in railroad signalling systems, moving street signs, traffic lights and in other fields. It was demonstrated for the first time in public by William A. Gleusing of the General Electric Research Laboratories, before the Science Forum of the New York Electrical Society.

Miller's Worm Powders can do no injury to the most delicate child, any child, or infant in the state of adolescence, who is infested with worms can take this preparation without a qualm of the stomach, and will find in it a sure relief and a full protection from these destructive pests, which are responsible for much sickness and great suffering to legions of little ones.

"My wife used to play the piano a lot, but since the children came she doesn't have time."

"Children are a comfort, aren't they?"

"What do they mean when they say Washington, D.C.?" asked the teacher.

"Washington de capital," piped up a little chap.

London will have an ideal homes show this spring.

## Bad Constipation And Sick Headaches Ended By Vegetable Pills

Formerly a weak from Constipation, Sick Headaches and Indigestion, Mr. V. H. writes: "I was a red-letter day when I received a box of Dr. Carter's Little Liver Pills. These have been marvellous. I am now a PURELY VEGETABLE, a gentle, effective tonic to both liver and bowels. Dr. Carter's Little Liver Pills will without equal for correcting Acidity, Bilioousness, Poor Complexion and Indigestion. 25c & 75c red box. Ask for Carter's by NAME."

## Tax Duplication

Premier Brownlee, Of Alberta, Denies Double Taxation System

Duplication of income taxes by federal and provincial governments was deplored by Premier John E. Brownlee of Alberta, addressing the annual meeting of the Winnipeg Board of Trade. He said steps should be taken to revise the constitution of Canada to meet modern requirements and eliminate the duplication of taxation.

Appealing for confidence, "clear thinking and sanity in the face of economic depression," Mr. Brownlee urged business men to co-operate with governments and farmers in the solution of the wheat's problems. The most pressing problem was that of agriculture. Some means must be found of enabling the farmer to overcome the burden of debts accumulated in the last two years.

Another problem was markets. Research in this field was needed. There were many untapped markets for western Canadian products. All should be sought out and explored.

The problem of governmental finance was also a serious one, but there could be no thought of inflation or public repudiation of debts. Mr. Brownlee criticized those who pressed for government economy at all costs. Saving in expenditure could only be pressed a certain distance, and after that it resulted in a curtailment of essential services.

## Death Toll Among Deer

Strange Malady Plays Havoc With Deer In Northern Saskatchewan

Reports that bear evidence of widespread death toll among deer of Saskatchewan's northland, have been reaching here. Starvation, or some strange malady which may be a form of "sleeping sickness" is believed the cause of the animals' deaths.

"Travellers from the Jack Pine lands of the Big River country tell of 'scores' and 'hundreds' of deer lying dead in the woods."

A game warden instructed by H. E. Ritter, provincial game commissioner, to trace down the reports, tells that on one day's journey while patrolling south of the Beaver River he came across the bodies of twelve deer. There was no apparent cause of death. The animals looked as if they had just laid down and died.

The lungs and liver of these deer were removed and have been sent to the veterinary pathologist at the University of Saskatchewan, who will determine the cause of death. The report is the first official one to be made since the latest that the condition is general in the northland, is to be investigated as soon as weather conditions permit travel.

Douglas' Egyptian Liniment is unrivalled for speedily relief in muscular rheumatism, lame back, inflammation, burns and felons.

## Churchill Development

Preparing Facilities For Both Inward and Outbound Cargoes

Construction of a freight shed for imports coming into western Canada by the Churchill route will be one of the first jobs at the Bay port this year. Tenders for the shed will be let very soon, it is expected. Only about 250 men will be employed at Churchill by the Department of Railways and Canals instead of the 750 that were the largest that year. Dredging will be done by one dredge this summer, instead of the two that worked last year. The dredging programme will be completed this summer and will leave the harbor ready for the next twenty years, according to port authorities.

Construction of the extension to the conveyor system is underway now and will be completed about the middle of the summer. Only a small portion remains to be completed on the dock. Efforts are under way to obtain livestock facilities at Churchill for the summer, and equipment for unloading coal from inbound boats.

Worms cause fretfulness and rob the infant of sleep, the great nourisher. Mother Graves' Worm Exterminator will clear the stomach and intestines and restore healthfulness.

## Work Without Pay

Municipal patriotism seems to be strong in London, England. No fewer than 12,500 voluntary workers assist in the London County Council in the management of their schools, hospitals, and mental homes. They are appointed every year in March, but they are not paid for their services.

Copper near the surface of the ground is said to check growth of vegetation. For this reason aeroplanes are being used in Africa to spot likely deposits of copper.

Bolivia is trying to arouse interest in gold mining.

## Cure For Drug Habit

Treatment Effective If Addict Wants To Be Cured

A treatment which the discoverers believe will cure any drug addict who has no complicating illness and who wants to be cured, was reported to the National Academy of Science, at Washington.

It was placed before the academy's annual meeting by Dr. Walter D. Bancroft, Dr. R. S. Gutsula and J. B. Rutledge, Jr., of Cornell University.

Bancroft and his co-workers discovered that morphine thickens, or coagulates, the proteins in these cells. This effect persists after the influence of a dose of the drug wears off, causing the craving for another and the gradual formation of the habit.

They found that sodium rhodanate acts as an antidote and thins out the thickened proteins again, doing away with the craving and so ending the habit.

## The Scott Cemetery

Famous Author's Death Will Be Commemorated In September

The twenty-first day of September next will be the centenary of the death of Sir Walter Scott, the novelist who has been called by some the greatest of all Scotland. In every English-speaking nation and also in countries of Europe preparations are being made to observe the event and commemorate the great work of the author of "The Waverley Novels," which still stand as masterpieces of romance and history after all these years.

## Name Was Justified

First Guest—"I'm sure I don't know why they call this hotel the Palms do you? I've never seen a palm anywhere near the place!" Second Guest—"You'll see them before you go. It's a pleasant little surprise, the whole staff keeps for the guests on the last day of their stay."

## CANADIAN WOMEN FIND DUSTING DISTASTEFUL

Dust cloths going into discard; Unpleasant to use; a bother to wash

APPLEFORD WONDER PAPER HAS GREAT VOGUE

Of all household tasks, that of dusting is the least appealing to the majority of women.

However, this condition, like many another connected with housework, is undergoing radical change. In a great many Canadian homes the women are discarding dust cloths entirely, and are using Appleford Wonder Paper instead, because it is so dust-free as it cleans—wipes it off, dusters a better and much quicker job than the old dust cloth ever did.

This new, and extremely modern Wonder Paper, is made from clean rags, and sold in paper pulp, treated in a scientific way with a high-grade furniture polish; and dusters dirt instead of spreading it.

Appleford Wonder Paper comes in handy-size packages, twenty-five large sheets for twenty-five cents. You crumple a sheet into a soft pad and go over the surface requiring attention. Then when one side is soiled or worn, turn the Wonder Paper inside out. After you have given a quick and lasting finish to furniture and woodwork, you can still use Wonder Paper on the floor, if you wish.

And when you are through, there's no old dust to take out or wash. Throw the soiled Wonder Paper away and you've completed the most tiresome part of housework in half the time and with half the effort.

Wonder Paper is made by the makers of the famous PARASANI Heavy Waxed Paper in the Green Box.

**Special Offer**  
Most grocery, hardware and department stores have Appleford Wonder Paper in stock. If yours hasn't, we'll be pleased to supply you from the factory. Just fill in this coupon.

Appleford Paper Products, Ltd., Hamilton, Ontario.  
Enclosed find 25c with which please send me one full-size package of Wonder Paper and your 1000 pieces for "Left-overs."

## DOMINION WILL CONTINUE TO AID IN DIRECT RELIEF

Ottawa, Ont.—The premiers of the various provinces were most emphatic in their expressions of opinion at the Dominion provincial unemployment conference that no good purpose could be served by setting out an amount of money in the bill to deal with unemployment and farm relief. Prime Minister R. B. Bennett, and Hon. W. A. Gordon, Minister of Labor, no informed the House of Commons when a resolution on relief after May 1 was before the chamber.

"The provinces have had a very difficult experience, especially the newer provinces," Mr. Bennett said, "with a scattered population, large areas, and they felt that it was undesirable to place in a measure of this kind a sum that might be available for the purposes indicated in the resolution."

A measure predicated upon the general view at the discussion will be drafted and introduced in the Commons shortly, Mr. Bennett said. In the meantime, a resolution has been submitted authorizing the Dominion to enter into agreements for relief with the provinces, and pay whatever sums it may be asked for by the Dominion to expend. Power is also contained in the resolution to make advances to the provinces. Authority to pay sums for special requirements in the national parks, in the drought-stricken areas of Saskatchewan, for assistance in defraying the cost of the sale and distribution of products of the field, farm, sea, river and mine are also set out. Further power of a similar nature is included.

The Dominion will continue to assist in direct relief. The provinces had indicated they could not continue for financial reasons on the construction programme to provide relief works. But, the committee was told, works now under way which could not be abandoned without loss would be continued to completion. No Dominion public works will be constructed this year except those authorized in the estimates passed by parliament.

To date, Mr. Gordon declared, \$50,000,000 had been spent on public works by way of indirect relief since the fall of 1930. Of the amount the Dominion had contributed \$48,000,000; and the provinces and the municipalities slightly over \$100,000,000.

By way of "direct" relief, the Dominion in the same period had spent \$12,000,000, exclusive of advances made to the Saskatchewan relief commission.

Total loans and advances made to the provinces since the fall of 1930 amounted to \$43,418,499.87.

The provinces of western Canada believed, said the Prime Minister, that they would be in a position to meet their ordinary expenditure this year. They hoped to do this by the imposition of taxes and the cutting of expenditure. But, whatever developed, the credit of the Dominion must be sustained by sustaining the credit of the provinces.

In certain provinces, continued the Prime Minister, it was argued that the burden of taxation was now almost intolerable. He illustrated the situation by stating that the income tax was now imposed by three separate institutions—provincial, Dominion and municipal governments. It had been suggested that the income tax field might well be divided, and that the provinces should be left that portion having to do with private incomes, while the Dominion collected from corporations.

## Montreal To Havana Flight

U.S. Flyer Makes Non-Stop Test Trip In Nine Hours

Havana, Cuba.—Lou Reichers, United States flyer, landed here at the end of a non-stop flight from Montreal, made to test the aeroplane in which he intends to attempt a trans-Atlantic flight this summer.

He made the trip in nine hours, three minutes, after leaving St. Hubert airport at Montreal.

Reichers had explained that the length of the Montreal-Havana flight—1,766 miles—was approximately the same distance he would have to fly over water from Harbor Grace, Newfoundland, to Ireland in the two-stop flight he plans to make to Paris in the summer.

The fuel tanks of his low wing Lockheed Altair monoplane carried 470 gallons of gasoline when he left Montreal.

W. N. U. 1940

## Hop To Australia

C. W. Scott, British Flyer, Makes Journey in Less Than Nine Days

Port Darwin, Australia.—C. W. Scott, British flyer, landed his aeroplane here after a flight from Lymington, England, beating the former record for an air trip between the two countries by seven hours and 36 minutes.

Scott's time for the 15,188 miles was eight days, 13 hours and 53 minutes, and regained for him the record he lost last year when C. A. Butler made the flight in nine days, two hours and 26 minutes, one hour and 42 minutes faster than Scott's previous time.

The flyer took off from Lymington at 5 o'clock on the morning of April 19, and flew by way of Brindisi, Italy, across Persia and India to Sourabaya, Java.

## Tour Western Canada

Governor-General and Lady Bessborough Plan Western Trip In August

Ottawa, Ont.—Circumstances permitting, Their Excellencies, the Governor-General and Lady Bessborough will leave Ottawa in the middle of August for a tour of western Canada. Lady Bessborough, who has been visiting overseas, will sail from England for Canada on Saturday, April 30, arriving back in the capital about May 9.

## BACK TO LAND PLAN IS HELPED BY RELIEF FUNDS

Ottawa, Ont.—Decision of the Federal Government to apply a portion of relief expenditures now being used in supporting unemployed families in enabling such families to gain a subsistence on the land was announced by Hon. W. A. Gordon, Minister of Labor, subject to equal contributions by the province and the municipality concerned.

It is proposed to assist families, physically fit and otherwise qualified to undertake settlement, to put themselves on a self-supporting basis. The joint contribution will be sufficient to cover the cost of modest establishment in the way of livestock and equipment in addition to necessary subsistence while the families are getting a start.

"This is in no sense a government-aided land settlement scheme," said Mr. Gordon, "but an application of relief expenditure to enable families receiving relief to contribute to their own maintenance by labor on the land, where they may eventually establish themselves on a self-supporting basis."

Administration of the scheme will be under provincial jurisdiction with respect to the selection of families, location of suitable farms and settlement of families therein. While responsibility for administration will rest upon the provinces it is intended that advisory committees, consisting of representatives of province, municipality, federal land settlement branch, Canadian Pacific and Canadian National Railways, will co-operate.

Adoption of the scheme in any locality will be dependent upon the approval and co-operation of the province and municipality concerned.

## Aviator Says Eskimos In Alaska Suffering

Many In Villages Destroyed By Tidal Wave Without Food

Fairbanks, Alaska.—A picture of human misery "so dire as to be almost unbelievable," was drawn by Pilot Art Woodley, upon his return here from a flight over the country between the mouth of the Yukon River and the Hooper Bay region.

The region was struck by a tidal wave last December and several native villages destroyed. Woodley was accompanied on his trip by the Very Rev. Francis Manager, superior of Jesuit Missions in Alaska.

Several hundred Eskimos in a number of the villages visited, Woodley and Father Manager said, were virtually without food. The ice cakes, which rode on the tidal wave, were carried inland as far as 20 miles, they said, and destroyed the Eskimos' winter supply of fish.

Missionaries have given aid, but their resources were reported by Father Manager to be limited. Scarcity is growing among the natives and there is a fear of floods as a result of the melting of heavy snows.

## Reward Is Offered

F.C. Government Making Determined Efforts To Discover Bombers

Victoria, B.C.—Determined efforts to identify miscreants responsible for a long series of bombings of school buildings and other structures, and tampering with railway tracks in the interior of British Columbia, have been launched by the government with the announcement of a reward of \$2,000 for information leading to the discovery and arrest of those responsible for sabotage in the Doukhobor area.

R. H. Pooley, Attorney-General, made the announcement following special efforts to trace those responsible for attempted train wrecking and bombings. In addition to the usual police stationed in the Doukhobor districts, 16 special constables have been sworn in under an intensive system of patrols. Guards have been stationed on public buildings.

Premier S. F. Tolmie announced that negotiations were being conducted with the federal authorities in connection with protection of public property on the main transportation system of the province.

## Effect Economies

Directors Of C.N.R. Have Worked Hard In This Direction

Ottawa, Ont.—The directors of the Canadian National Railways worked hard in the interests of the system, W. A. Booy, K.C., a member of the C.N.R. board told the House of Commons committee on railways and shipping here today. Many economies have been effected, and the personnel of the board had at heart the success of the railways. Mr. Booy cited the report of the sub-committee, of which he was chairman, as indicating the extent to which expenditures had been reduced.

## Regina Man Selected

Ottawa, Ont.—F. W. Turnbull, K.C. member for Regina, has been selected as secretary of the Canadian delegation to the Empire Parliamentary Association Conference to be held at Bermuda. The delegation went via New York and will return May 11.

## OPENING OF NAVIGATION

Captain F. J. Davis on the deck of his ship, the C. P. Steamship "Keewatin," when he received the ceremonial sail "topper" for being the first skipper to bring the vessel into Port William when navigation opened on the Great Lakes this season. The lucky Captain is seen being congratulated by G. R. Duncan, president of the Port William Chamber of Commerce, who also presented him with an illuminated address.

## WINS BY ELECTION

Arthur Greenwood, former Minister of Health in the British Labor Government, who was victorious in the Wakefield by-election when he defeated Ernest Greaves, Conservative. The vote was Greenwood, 13,586; Greaves, 13,242.

## New Trade Treaty

Canada-New Zealand Agreement May Increase Our Exports To Antipodes

Ottawa, Ont.—Canada receives the full British preferential tariff on all exports to New Zealand, with the exception of six items, under the Canada-New Zealand trade agreement made public in the House of Commons by Hon. H. E. Stevens, Minister of Trade and Commerce. The pact is for one year—by reason of the coming Imperial Economic Conference—and will come into effect by proclamation following parliamentary approval by the sister dominion.

The potential normal market in New Zealand is \$200,000,000 annually. Canada's normal yearly share in this Antipodean market has been \$19,000,000 approximately, although in 1929 exports to New Zealand showed a value of \$15,000,000. Mr. Stevens expressed the highest hope of increasing very considerably Canadian exports to the Antipodes.

## Praise For the British

U.S. Trade Commission Says End Of Depression In Sight In England

Windsor, Ont.—"It isn't the bunk—It's true England is back on her feet," said Robert J. Rustace, industrial and foreign trade commissioner of the Toledo Chamber of Commerce during the course of an address to the Border Cities Kiwanis Club.

"It would do the United States business man a world of good to see the spirit in England," the speaker continued. He praised business psychology, statecraft and the poise of the British people. Mr. Rustace recently returned from a trip to the British Isles and to Europe.

It appeared to the speaker that the end of the depression had been reached in England and that recovery would precede a similar situation in the United States.

## Disagree On Submarines

Geneva, Switzerland.—Indictment of the submarine as the only offensive naval weapon by British and United States naval experts, met with sharp opposition from spokesmen for the smaller powers on the naval commission at the disarmament conference.

## Bank Closing Not Intended

Premier Bracken Expected To Get Assistance From Government

Winnipeg, Man.—Premier John Bracken told the Manitoba Legislature's committee inquiring into closing of the Provincial Savings Office that he had never negotiated with Prime Minister R. B. Bennett with a view to closing the office. He had hoped to get financial aid from the Dominion Government with which to meet heavy withdrawals but was turned down, he said, and only then was closing of the institution considered.

The Savings Office was closed in February after the federal government and banks had refused to grant Manitoba a loan which would have permitted continuance of business, remarked the premier.

## Banning Use Of Highways

Government Of Alberta Saved Huge Sum By Protecting Gravelled Roads

Edmonton, Alberta.—The Government of Alberta saved \$500,000 through banning the use of certain highways owing to recent heavy snowfalls and rains, said Premier J. E. Brownlee, Wednesday, April 27. Mr. Brownlee was referring to protests of Edmonton transport companies who claimed the ban prevented them from doing business.

If heavy trucks or buses had been allowed on the highways during the excessive snow and rain, the highways would have been seriously damaged and the cost of repair would have been nearly half a million, said Mr. Brownlee.

## A Troublesome Side Line

Sir Henry Thornton Wishes C.N.R. Did Not Own Any Hotels

Ottawa, Ont.—"I would be delighted if we did not own hotels anywhere. They give me more trouble than all the rest of the railways put together," Sir Henry Thornton, president of the Canadian National Railways, told the House of Commons committee on railways and shipping here Wednesday, April 27. Many of these had been in existence before he became president of the system, while others had been built in order to equalize competition with the Canadian Pacific.

## VALERA POLICY IS TO REMAIN WITHIN EMPIRE

Dublin, Irish Free State.—President James B. Valera, during debate in the Dail Eireann on his bill to abolish the oath of allegiance to the British crown, made it clear his intention was to get rid of the oath without withdrawing the Irish Free State from the British Commonwealth of Nations.

As a prelude to the president's motion for second reading of the bill, the government was unexpectedly defeated on a side issue connected with the problem of unemployment. The vote, 76 to 68, brought shouts of "Re-sign!" from the opposition benches, but Mr. de Valera ignored them, and went on to the debate on the oath.

In quiet, unimpassioned tones, he made this assertion:

"We propose to honor scrupulously the pledges we gave the electors, we hold there is no obligation on us to consult the British Government with respect to the action we are taking. Deletion of the oath is quite consistent with the position of the Free State as one of the co-equal partners in the British Commonwealth."

Turning to the proposal to delete the section of the constitution which makes that constitution subject to terms of the Anglo-Irish treaty, a provision which the bill also seeks to remove, the president said his purpose was to put the treaty in the same position as other countries put their treaties.

It should be possible, he maintained, for the courts to say municipal law was subject to the terms of the treaty.

Mr. de Valera's pronouncement brought former Premier William T. Cosgrave to his feet to attack the bill as "the greatest piece of political chicanery in history." Its very simplicity, he said, was its own condemnation.

"One clause of the treaty is as binding as any other," Mr. Cosgrave declared. "Destroy one and you destroy all."

The bill, he contended, was a breach of the treaty, and the only way to alter that document was by mutual agreement between the Free State and Great Britain.

## THE BANK ACT AND ADVANCES TO PROVINCES

Ottawa, Ont.—The Dominion Government does not contemplate amending the Bank Act and the Finance Act to enable a province to establish a provincial bank and to enable the Minister of Finance to make advances of currency to a province for such purpose upon the security pledged. Premier R. B. Bennett gave this answer in the House of Commons, Thursday, April 25, to J. S. Woodsworth (Lab., Winnipeg North Centre), who brought up a resolution passed by the Manitoba legislature two weeks ago containing this proposal.

"First," said Mr. Bennett, "banks and banking under our constitution are solely within the jurisdiction of this parliament, to the exclusion of provincial power; secondly, if the province of Manitoba desires to establish a bank it can, under the provisions of the Bank Act, incorporate a bank in this parliament, or direct that it be done, and establish such a bank in the manner described by the Bank Act; and, thirdly, this parliament should not confer power except by amendment to the constitution itself, if by the resolution in question it is intended that we should confer upon a province power which the British North American Act declares belongs exclusively to the Dominion and which the Dominion cannot by mere legislation pass on to the province."

The Prime Minister declared he had received a copy of the resolution, transmitted through official sources. "The answer which I have roughly drafted," he said, "and which will be forwarded, is the answer which I have now given."

Mr. Woodsworth asked "whether it would not be possible without any violation of the constitution, that the provinces should be given the same right under the Finance Act that is now possessed by the banks?"

"No, because they are not capable of supplying the security under which that power is exercised," Premier Bennett answered. "I will give the hon. gentleman a concrete case. The banks are now overloaded with the securities of the province to which they refer, and under the provisions of the Finance Act they could only grant the banks a limited amount on the deposit of these securities; and the treasury board has to fix the extent to which the advances could be made from time to time, having regard to the solvency and credit conditions that obtain in the province in question. I think the hon. gentleman will realize that if the power he mentions were exercised, the whole financial structure would be destroyed overnight."

## Expresses Sympathy

Prince Of Wales Is Moved By Flight Of Unemployed

Newcastle, England.—The Prince of Wales expressed sympathy for the workless and made a plea to social workers for voluntary personal service to better what he termed "deplorable conditions" during a tour of this distressed industrial district of England.

Moved by the plight of the unemployed, he made a little impromptu speech of sympathy to 300 of the jobless at an unemployment centre at South Shields.

"Let me wish you the best of luck," he said. "My sympathy is with you all. I sincerely hope the employment that used to be here will come back and hard times will not continue very much longer."

The uncheduled speech surprised and pleased the hearers, who acknowledged it with cheers.

## Jury Was Lenient

Did Not Blame Accused For Kissing Pretty Girl

Warren, Ont.—Lips of Warren maidens are so alluring that man can't be blamed for trying to kiss them, a jury of five Warren burghers decided in Judge Edmond Provis' division court. Pappi Honore Dabrowski sued neighbor Giorou Ovlia for trying to kiss his daughter, Elizabeth, but the jury took a look at Elizabeth and decided that man is weak and Ovlia was not to be blamed.

Though the case was a civil action for \$100, the jury brought in a verdict of "not guilty."

"Not guilty of what?" demanded Judge Provis.

"Not guilty of anything," the jury replied.

Trout fishing opened in British Columbia on Sunday, May the 1st.

Mr. and Mrs. Lee McIntyre, of Calgary, were visitors to Blairmore during the week.

The infant child of Mr. and Mrs. Paris Baratelli died last week and was buried last week end.

A special Greyhound bus is commissioned by the mounted police here during the strike.

Do not forget Mothers' Day service in the United church on Sunday next, May 8th, at 7:30 p.m.

George Ritson, formerly of Cowley, now representing the Canadian Oils Ltd., was in town last week end.

Fred Hergert, star centre man of the Calgary Bronks, will sport Drumheller Miners' colors next season.

We thank Harvey Murphy for forgetting us in his condemnation of good things in general here on demonstration day.

Remember the Tea and Sale of Home Cooking to be held at the United church auditorium on Saturday, from 3 to 6 p.m.

A Coleman miner was overheard remarking last week that he had heard to Blairmore miners were only one per cent English speaking. Next!

A whist drive and dance will be held in the Catholic hall at Hillcrest on Monday night next, under auspices of the C.G.G. Whist at 7:30.

Several cars left for Lethbridge yesterday and today, loaded with competitors and music lovers for the Lethbridge district musical festival.

The regular meeting of Crows' Nest Chapter of the I.O.D.E. will be held at the home of Mrs. D. B. McKay on Monday next at 7:30. All members are requested to attend.

Because Saturday's workers' procession was led by a man with the bagpipes, it should not be taken for granted that more than one per cent of those following were Scotch.

In our last week's issue an error occurred in the list of winners at the Cranbrook musical festival. In piano under 16, Helen Westrup, of Hillcrest, attained first place; Doris Hales, Blairmore, second, and Grace Wheatcroft, Blairmore, third.

Laughs, thrills, romance and drama in "Mother's Millions," to be shown at Cole's Theatre, Bellevue, on Monday, Tuesday and Wednesday next. A new note in talkie entertainment...a picture that will have you rocking in your seat with laughter as you brush away a tear...the highly hilarious and deeply dramatic story of the world's richest woman, who could buy anything—everything—but love.

The baseball season was opened by a game on Sunday afternoon on the Blairmore stadium between Bellevue and Blairmore, the latter winning 4-3. A Decous acted as umpire. Teams were as follows: Bellevue, Pozzi, Slick, Duke, Kuback, Chick, Mills, Richards, Gatto and Lindy; Blairmore—Johnson, Vangatosloven, Coccini, A. Vejprava, R. Pinkney, L. Pozzi, J. Evans, H. Vanduren and Kapalka.

"F. J. S." in the Cranbrook Courier remarks: "We have often heard of 'fiddlers' green,' but never knew where it was located until we attended the musical festival last week. It lies down in the Crows' Nest Pass, somewhere around Blairmore and Hillcrest. Never did we see such a bunch of fiddlers come from a small locality, and all good ones at that. Mentioned this to a man sitting alongside me, and he said: 'Well, you know, these fellows are working only half time down there, and I guess they have taken up fiddling to keep them from going crazy.'"

Tom Prentice has again been chosen president of the Fernie Rod and Gun Club.

Mr. and Mrs. A. Noel Cox, of Lundbreck, were visitors to Blairmore on Thursday.

A meeting of the town council was held on Tuesday evening, at which very little business was transacted.

Safeway Stores Limited are opening a branch at Macleod, in premises formerly occupied by the Silver Grill.

J. H. Boyle has been elected mayor of Granum, to complete the unexpired term of the late Mayor C. F. Kellicott.

The Blairmore Concert Party will stage a three-act play in St. Mary's hall, Cranbrook, on Saturday evening.

R. J. Dinning, liquor commissioner, was in The Pass from Edmonton on Tuesday, accompanied by Mr. Pollis, hotels inspector.

Remember the Tea and Sale of Home Cooking to be held at the United church auditorium on Saturday, from 3 to 6 p.m.

H. B. Adhead, former Labor member for east Calgary in the house of commons, died on Sunday night, following a very brief illness.

The ladies of the United church will conduct a tea and sale of home cooking, etc., in the new auditorium on Saturday afternoon from 3 to 6.

A Laugh Squall—Come and hear Mrs. Strongmind in "Down With Husbands" at the United church auditorium Thursday, May the 12th.

SPECIAL PRICES ON PERMANENT WAVES—Mr. and Mrs. Tuffland will be at Murphy's Barber Shop on May 13th and 14th. For appointments phone residence 312.

Mr. and Mrs. H. T. Halliwell, Coleman, announce the marriage of their daughter, Margaret Lillian, to Mr. George William Roger LeRoy, son of Mr. and Mrs. Herbert LeRoy, of Michel, B.C., on April 28th.

A local bachelor, in making out his income tax returns, was wondering how he could claim statutory exemptions, but quit worrying when he found out he wouldn't get any benefit out of marriage till next year.

Two laughable hits, "The Women's Convention at Punkville" and "Henpeck Holler Gossip," will form part of a programme to be rendered at the United church auditorium on Thursday night next. Come and laugh.

Sunday next will be observed as Mothers' Day. Special activities will feature the services at the local churches. At St. Paul's United, Coleman, a pageant will be presented at the morning service. Miss Peggy Cole, of Bellevue, noted elocutionist, will take part, assisted by the junior choir. Mrs. Currie, a Lethbridge festival medallist, will sing. Special activities will also be featured at Blairmore.

All interest this week is centered upon Bellevue, where work was offered those who wished to avail of it. The Red element, however, have undertaken to picket the approaches to the mine properties, but are being held fairly well in check by reinforcements of mounted police. So far, no great disturbance has occurred. Around seventy men are said to be working, today's complement being four less than yesterday.

"What This Country Needs is a Darned Good Laugh." See it portrayed in "Mother's Millions" at Cole's Theatre. She may look mean, but the meaner she looks the more you'll laugh when you see her in the picture that's rocking the country with laughter. She's May Robson, the greatest female character comedienne on the stage, and this will be your first chance to see her on the talking screen. She'll make you love her and want to see her often.
